Consultation questions

Are you:: an insurer or representative organisation , an employer or representative organisation

If someone else, please
specify:

Please outline your
feedback here: As an organisation, we are broadly supportive of the revised guidelines.
Of note from our perspective, further guidance for registration of
interstate providers would be appreciated - we feel the current
framework is a little bit light on this and in an ongoing epidemic, access

to telehealth services can often be from interstate based providers for our national organisation. The other key point is that we appreciate the framework for the grounds for suspension of an allied health provider, however would appreciate further input on how this will be executed in practice - how will outlier providers be identified and managed. What tools are available to claims managers to engage poor quality providers or to draw SIRA's attention to them? These callouts notwithstanding, we support and are happy with the updated framework.

You can attach your
feedback as a separate attachment: No file uploaded
