Dear Colleagues,

**Re: Submissions as to the role of Health professionals and earning capacity decisions in the CTP scheme**

I refer to the request for submissions for review of the proposed advice due 12 June 2019 by 11.59pm.

I thank you for the opportunity to make submissions.

I refer to the subheading “Required experience” and note the following criteria in the proposed advice:

- Recent relevant professional experience (within three years)
- A minimum of 12 months of relevant experience

I note, however the adjective “relevant” is not defined and seems to be subjective to the reader. This could cause confusion as what is “relevant” is not clear from reading the proposed advice.

I recommend that the proposed advice be amended to identify those matters that qualify the word “relevant” as it appears in the criteria.

Yours sincerely

Andrew M Combe
