### Return to work rates

(Date entered into system )

Note Based on a rolling 12-month cohort

**Note:** SIRA identified data quality issues with the accuracy and completeness of return to work data submitted by the Nominal Insurer (NI). The data appears to indicate a significant deterioration in the NI's RTW performance. SIRA instructed the NI to improve the quality of the data. To address both the data quality and performance concerns with the NI, SIRA carried out a data quality audit in December 2018 and completed a Compliance and Performance Review in December 2019. In addition SIRA has a 21 point action plan for the NI – [see an update here](#)
