NSW Fair Trading
Department of Services, Technology and Administration
McKell Building, 2-24 Rawson Place
SYDNEY NSW 2000

Dear Sirs

HWI Scheme Data as at 31 December 2009

Finity Consulting Pty Limited (Finity) was engaged by NSW Fair Trading to review the publication of data for the Home Warranty Insurance (HWI) Scheme.

Finity has reviewed the descriptions of the data and the presentation of tables and graphs to make sure the data is presented fairly and is not likely to be misinterpreted. Note that Finity has not reviewed the accuracy of the data provided by the insurers nor the accuracy of the summary tables prepared by Fair Trading, but, where possible, has considered them for reasonableness.

We particularly draw the attention of the reader to Section 2 of the publication – Caution in Interpreting the Information.

Yours sincerely

Bruce Watson

David Minty

Fellows of the Institute of Actuaries of Australia

HWI SCHEME INFORMATION

1 PREAMBLE

The *Home Building Act 1989* establishes a home warranty insurance (HWI) scheme. The scheme involves approved private insurers and provides protection for consumers where builders fail to complete residential building work or rectify defects.

NSW Fair Trading, within the Department of Services, Technology and Administration, has certain regulatory responsibilities in relation to home warranty insurance. One of the roles of Fair Trading is to collect data from insurers offering HWI to enable monitoring of the financial progress of the scheme.

In New South Wales, HWI may only be offered by insurers approved by the Minister under the Act. During the quarter ended 31 December 2009 there were five groups of licensed insurers approved to offer HWI in New South Wales. In July 2009 two insurers (**CGU Insurance Limited** and **Wesfarmers General Insurance Limited**, trading as **Lumley General**), announced they were withdrawing from the home warranty insurance market. These two insurers, which then accounted for about a quarter of the market in terms of builder eligibilities and written premium, ceased writing new home warranty insurance policies from 1 December 2009 and 1 January 2010 respectively.

Since September 2005 insurers in the HWI scheme have been providing data on a quarterly basis to Fair Trading. The following information on the operation of the scheme applies only to the version of the scheme in operation since 1 July 2002 which from that date made it clear that the protection offered applied only in the event of the death, disappearance or insolvency of a builder. For policies issued from 19 May 2009, cover extends to situations where a builder's licence is suspended for a failure to comply with a mandatory monetary order of the Consumer, Trader and Tenancy Tribunal or a court in favour of the homeowner.

This publication summarises the data that has been provided since June 2006 for the insurance period 1 July 2002 to 31 December 2009. The information provided has been aggregated across insurers. Data provided by individual insurers is commercially confidential and has not been disclosed.

New home warranty insurance arrangements

On 8 November 2009, the Government announced that a new Home Warranty Insurance Scheme will commence in New South Wales on 1 July 2010. The change involves the Government underwriting and capitalising the Home Warranty Insurance Scheme, which will be fully funded by premiums.

For further information, including the latest updates on the progress of these arrangements, refer Fair Trading's website:

http://www.fairtrading.nsw.gov.au/About_us/News_and_events/Whats_new/New_home_warranty_insurance_arrangements.html

2 CAUTION IN INTERPRETING THE INFORMATION

The current version of the HWI scheme is at an early stage of evolution. As a result, considerable caution is required when interpreting the information provided in this publication.

HWI is a 'long tail' class of insurance business, which means:

- there may be significant delay between the date a project certificate is issued and the commencement of the project;
- the duration of building projects may range from a few weeks to several years;
- coverage remains in place for six years after project completion; and
- it may take some time for home owners to identify a loss, lodge a claim with an insurer and for the insurer to assess the claim and arrange rectification.

Therefore, care must be taken in basing conclusions on trends that have emerged to date. The data in this publication relates only to project certificates issued from 1 July 2002 and to claims that have been notified to date on those certificates. **It does NOT include claims that have not yet been reported to insurers on those certificates, or any provisions made by insurers in their accounts for either the cost of unreported claims or cost escalation on reported claims.** Experience with the former Government administered schemes showed that claims may be lodged with insurers as long as ten years after the issue of HWI.

It is only possible to make an assessment of the financial performance of the HWI scheme by comparing premiums collected with all the relevant costs of insurers over the full life of the HWI cover. At this time, there is insufficient information to make such an assessment although useful information will emerge as the business matures.

Claims experience of HWI can vary greatly from year to year depending on economic conditions in both the home building market and in the community generally. The nature of insurance is also that there are good years and bad years depending on the state of the insurance cycle and the degree of competition in the insurance market both in Australia and globally. For the first few years after the new HWI scheme commenced, the NSW economy performed reasonably well, and conditions were generally favourable for home builders.

As over 90% of home warranty claims arise from the insolvency of the builder, the downturn in the economy in 2008 drove a significant increase in claims on the scheme as even some larger builders have been subject to material financial stress. Poor business decisions are also more likely to convert into business failure if additional financing is unexpectedly required when lending or investing conditions are tight. Any serious assessment of the scheme should place substantial weight not only on the long tail nature of the scheme, but also that different economic circumstances can yield significantly different claims results.

3 DATA

Part I Information Related only to Licensed Builders

A Eligibility Information

Under the HWI scheme, licensed builders may apply to an insurer of their choice for HWI eligibility. Eligibility is a form of pre-approval for the issue of HWI project certificates. Eligibility for HWI does not apply to owner-builders.

A.1 Builder eligibilities

Table A1 shows the number of builder eligibilities at the end of each quarter by turnover band. It excludes builders with eligibility pending, but includes builders who may have eligibility with more than one insurer at the time of reporting. Turnover refers to the total annual turnover for which the builder has eligibility from the insurer at the end of the quarter for all types of cover.

Table A1 Number of builder eligibilities by turnover band

Turnover band (\$' m)	\$0 - <0.5m	\$0.5 - <1m	\$1 - <2m	\$2 - <3m	\$3 - <5m	\$5 - <20m	\$20+m	Change in Turnover Requested	unlimited	Totals

Mar 08	1,738	1,718	4,651	4,160	3,383	911	131	59	408	17,159
Jun 08	2,081	1,777	4,528	4,024	3,499	903	134	107	286	17,339
Sep 08	2,103	1,852	4,680	3,817	3,922	1,052	140	11	433	18,010
Dec 08	2,142	1,948	4,743	4,072	3,921	925	145	3	452	18,351
Mar 09	2,227	1,915	4,677	3,852	3,892	818	125	2	373	17,881
Jun 09	2,225	1,983	4,768	3,788	3,860	780	122	2	298	17,826
Sep 09	2,381	2,219	5,477	3,882	3,952	799	126	16	286	# 19,138
Dec 09	1,906	1,886	4,514	3,305	3,923	706	106	0	0	* 16,346

Most licensed builders have eligibility for annual turnover within the \$1 million to \$5 million bands. As at 31 December 2009, 1,999 builders (or 14% of the total 14,321 eligible builders) had established eligibility for cover with two or more insurers. The proportion last quarter was 22.6%.

Notes:

As at September 2009 the high proportion of builders with eligibility from multiple insurers was largely due to existing builders who were then insured by CGU and Lumley, obtaining alternative eligibility with the remaining insurers.

* During the December 2009 quarter, as CGU and Lumley withdrew from the market, the total number of builders with multiple eligibilities fell accordingly.

Figure A1 - Trend in: a) number of licensed builders with eligibility, and b) number of current eligibilities held by licensed builders, as at end of each quarter

B Securities and Indemnities Information

In some circumstances an insurer may require a security or indemnity of some form before granting eligibility to a builder. The most common form of security is an indemnity (usually provided by an individual director or other third party) and/or a bank guarantee. The information on securities does not include owner-builders.

B.1 Number and type of securities held by insurers

Table B1 Number of Securities and Indemnities – current as at end of each quarter

Quarter	Bank Guarantee	Indemnity	Multiple Securities	Other Security	Totals	% of Total Builder Eligibility
Dec 06	221	1,212	68	2	1,503	10.8%
Mar 07	227	1,262	76	4	1,569	10.9%
Jun 07	209	1,312	123	4	1,648	11.2%
Sept 07	227	1,380	133	4	1,744	11.0%
Dec 07	229	1,354	132	4	1,719	10.2%
Mar 08	207	1,461	144	2	1,814	10.6%
Jun 08	139	1,381	120	1	1,641	9.5%
Sep 08	144	1,372	112	1	1,629	9.0%
Dec 08	135	1,405	117	1	1,658	9.0%
Mar 09	154	1,126	58	1	1,339	7.5%
Jun 09	155	1,118	59	1	1,333	7.5%
Sep 09	150	1,254	56	1	1,461	7.6%
Dec 09	136	1,184	53	0	1,373	8.4%

As at 31 December 2009, 8.4% of builder eligibilities were subject to some form of security being in place. Looked at another way, over 90% of builders receive eligibility for insurance cover without having to provide any form of security to the insurer.

B.2 Dollar value of securities held by insurers

Table B2 Value of Securities and Indemnities (\$'000) - current as at end of each quarter

C Project Certificate Information – Builder

Generally an insurer issues a project certificate in relation to a project prior to building commencement. The project certificate is evidence of the HWI contract.

Insurers report to Fair Trading the number of project certificates issued during each quarter and the number of project certificates for projects still in progress (current) at the end of the quarter. This latter figure involves some degree of estimation as insurers are not necessarily advised by builders on whether all individual projects are complete or still in progress.

C.1 Current project certificates - Builder

Figure C1 shows the trend in the total number of current project certificates for “work in progress” as at the end of each quarter as reported by insurers. These figures do not include owner builder projects.

Figure C1 Trend in total number of current project certificates - as at the end of each quarter

Note: Since December 2007, insurers have been instructed to assume that a project has been completed 12 months after certificate issue unless they know its status to be uncompleted. The decrease in number of current project certificates as at 31 March 2008 was mainly due to overcoming a backlog of lapsed/deemed completed project certificates from preceding quarters. The data for December 2007 and earlier quarters is therefore overstated as it includes projects that should have been deemed completed.

C.2 New project certificates issued - Builder

Tables C1, C2 and figure C2.1 show the number and value of new project certificates issued during the quarter, reduced by the number (or value) of project certificates cancelled in the quarter. A cancellation occurs when a project certificate is terminated because the project did not commence. If a project certificate applies to more than one type of cover, then it is classified under the type of cover that represents the greatest value under the contract.

Table C1. Number of project certificates issued by type of cover

Quarter /Type of cover	New single dwelling construction	New multi dwelling (greater than 3 storeys) *	New multi dwelling (3 storeys or less) *	Alterations /Additions #	Swimming Pools	Renovations (including kitchens and bathrooms) ^	Other	Totals
Dec 06	3,548	33	1,331	3,104	1,407	2,664	350	12,437
Mar 07	3,453	24	1,348	3,369	1,161	2,580	240	12,175

Sept 07	4,227	0	1,358	4,129	1,383	3,760	165	15,022
Dec 07	4,222	0	1,249	3,834	1,580	3,488	234	14,607
Mar 08	3,702	0	970	4,030	1,043	3,551	207	13,503
Jun 08	3,881	0	983	4,221	1,019	3,881	253	14,238
Sep 08	3,529	0	1,204	4,307	1,090	3,725	165	14,020
Dec 08	3,020	0	762	3,167	921	3,017	175	11,062
Mar 09	3,008	0	884	3,222	933	2,928	267	11,242
Jun 09	4,206	0	700	3,630	830	3,821	304	13,491
Sep 09	4,965	0	852	4,114	1,321	3,707	238	15,197
Dec 09	4,028	0	969	3,782	1,156	2,899	149	12,983

- * A project certificate is issued for each unit in a multi-unit development.
- # Alterations and additions - structural (i.e. the majority of the work is structural).
- ^ Renovations - non-structural (i.e. the majority of the contract is non structural), including e.g. kitchen/bathroom renovations and trade work.

More than half of the project certificates issued in December 2009 were for alterations (29%) and renovations (22%). 38% of certificates were issued for new single and multi-unit dwellings.

The number of certificates issued in the December quarter is down 15% compared with the September quarter. Over the 12 months to December 2009, 52,913 certificates were issued, which was about the same level as that of the previous 12 months (52,823).

- * A project certificate is issued for each unit in a multi-unit development.
- # Alterations and additions - structural (i.e. the majority of the work is structural)
- ^ Renovations - non-structural (i.e. the majority of the contract is non structural), including e.g. kitchen/bathroom renovations and trade work.

C.3 Building approvals versus new project certificates issued – Builder and Owner-Builder

The following figures and Table C3 compare new project certificates issued with building approvals for new dwellings granted based on Australian Bureau of Statistics (ABS) data collected from NSW local government authorities. The ABS data does not distinguish between builders and owner-builders so we have combined them for this part of the analysis.

Figures C3.1 and C3.2 show the detailed comparisons for numbers and values respectively of new dwellings and project certificates. Both certificates and building approvals achieved their highest levels in the last three years in the September quarter measured by both numbers and values.

During the first three quarters of 2009, numbers and values had been tracking to the ABS building approval data quite closely. However, in the December 2009 quarter we saw building approvals continue to increase strongly while the number and value of certificates issued fell. It may be possible that cyclical / processing delay in issuing certificates in the December quarter by certain insurer may have partly contributed to this discrepancy. ABS report 8755.0 (Construction Work – Australia) shows no material change in the numbers of approved dwellings not yet commenced, so there is no backlog developing of uncommenced work which might explain this discrepancy.

Table C3. Building approvals versus project certificates issued

Quarter	All new dwellings of three storeys or less			All new dwellings of three storeys or less		
	Certificates issued	Building approvals	Ratio	Value of certificates issued	Value of building approvals	Ratio

D Premium Information - Builder

Insurers provide information to Fair Trading on the premium charged for project certificates issued to builders during the quarter. For the reports below, premium is shown on two bases: including charges and excluding charges. "Charges" refer to all commissions, government and other charges (i.e. GST, stamp duty, government levies and credit card surcharges) as reported by insurers to Fair Trading.

Premium excluding charges is the amount retained by the insurer to pay claims and the insurer's expenses.

Premium including charges is intended to represent the amount paid by the builder including statutory charges such as GST. However, it excludes any fees charged by brokers or intermediaries in addition to the insurer's premium. Based on information received from insurers, such brokerage fees are understood generally to be a flat dollar amount per certificate ranging from \$50 to \$400 depending on the volume of business of a particular broker with a particular builder. Any margin added by the builder in on-charging the premium to consumers also is not captured in the insurers' data and is therefore not reported in the figures below.

D.1 Total premiums by project type - Builder

* A project certificate is issued for each unit in a multi-unit development.

Alterations and additions - structural (i.e. the majority of the work is structural)

^ Renovations - non-structural (i.e. the majority of the contract is non structural), including e.g. kitchen/bathroom renovations and trade work.

Average premiums per \$1,000 value of certificate issued (Table D2.2) fell from September 2006 to June 2008 by about 27%. From June 2008 to December 2009, the average premiums have increased by 31%. The average rates are now close to those of December 2006.

Total premiums have decreased 2.4% during the quarter representing the net effect of a 15% decrease in the number of certificates issued, which was largely offset by a 14% increase in average premium charged per project certificate.

E Claims information - Builder

The handling and management of claims by insurers is subject to *Claims Handling Guidelines* that are available on the Fair Trading website. Fair Trading is provided with data at the end of each quarter of all claims received by insurers in respect of HWI business issued after 1 July 2002.

The information set out below provides only a partial picture of HWI Scheme activity. Therefore, care must be taken in basing conclusions on trends that have emerged to date. The data in this publication relates only to project certificates issued from 1 July 2002 and to claims that have been notified to date on those certificates. **It does NOT include claims that have not yet been reported to insurers on those certificates or any provisions made by insurers in their accounts for the cost of unreported claims or cost escalation on reported claims.** Also, it does not include any information on claims arising from project certificates issued prior to 1 July 2002, even though claims relating to prior years continue to be reported and settled in the post 1 July 2002 period.

E.1 Number of claims by liability assessment status - Builder

Table E1 Cumulative Number of Claims by Liability Status at each quarter end

Quarter	Notification only #	Liability being assessed	Liability fully, partially or deemed accepted	Liability fully denied	Liability in dispute	Total
Dec 06	230	49	275	136	60	750
Mar 07	249	42	314	150	61	816
Jun 07	274	61	350	174	62	921
Sept 07	295	64	434	186	66	1,045
Dec 07	312	104	491	206	62	1,175
Mar 08	362	154	528	223	76	1,343
Jun 08	802	280	667	245	12	[^] 2,006
Sep 08	660	323	1,048	277	15	2,323
Dec 08	791	279	1,222	305	29	2,626
Mar 09	970	261	1,339	333	25	2,928
Jun 09	1,004	217	1,531	356	29	3,137
Sep 09	1,110	228	1,642	393	34	3,407
Dec 09	1,133	204	1,784	489	35	3,645

[^] The significant increase in the total number of claims in the June 2008 quarter was largely driven by the Beechwood Homes collapse in May 2008. As at 31 December 2009, about 19% of the claims reported to date under the scheme relate to the Beechwood Homes collapse.

If a 'Notification' has not become a claim after an extended period, its status is recorded as 'Finalised' within the 'Notification' category. As at 31 December 2009, there were 905 such 'Notifications' which have been recorded as 'Finalised', including 168 relating to Beechwood.

E.2 Reasons claims denied - Builder

Table E2. Number of claims with liability fully denied - breakdown by Reason Claim Declined – cumulative at end of each quarter

Quarter	Incorrect Insurer	Out of time	Builder found	Builder not dead	Builder not insolvent	Not deemed a defect	Reason not available from insurer #	Total
Dec 06	0	17	6		29	33	51	136

Jun 09	0	32	54	1	114	155	0	356
Sep 09	0	35	59	2	121	176	0	393
Dec 09	1	40	66	2	123	257	0	489

refers to claims declined by an insurer prior to the commencement of the data reporting requirements where the reason for the claim being declined was not reported in the insurer's systems. By 31 March 2008, insurers had identified the cause of all declined claims.

E.3 Claims experience - Builder

The remaining tables in this section show a further breakdown of the claims that have been accepted in respect of builders (not owner-builders) as at **31 December 2009**. Information is shown separately between (a) claims that are finalised with all costs known and (b) those that are open, in which case at least part of the cost is an estimate of future payments.

Table E3. Claims Experience by Principal Cause (incl GST) – for Finalised Accepted* Claims

Principal Cause	No. of Claims	Sum Paid to Claimant	Sum Paid to Third Parties	Total Gross Paid \$	Average Claim Size \$
A01: Insolvency	1,073	41,500,094	3,241,001	44,741,095	41,697
A02: Death	14	513,417	39,480	552,897	39,493
A03: Disappearance	41	2,111,762	89,255	2,201,017	53,683
Total	1,128	44,125,273	3,369,736	47,495,009	42,106

*Accepted Claims are those in which liability is partially, fully or deemed accepted by the insurer.

"Paid to Claimant" includes all payments to the claimant or to suppliers involved in the rectification of the works. "Paid to Third Parties" includes payments to investigators, loss adjusters, legal expenses, etc. but not insurers' claims handling expenses (overheads).

Table E4. Claims Experience by Principal Cause (incl GST) – for Open* Accepted Claims

Principal Cause	No. of Claims	Sum of Paid to Claimant	Sum of Paid to Third Parties	Net Outstanding Estimate \$	Estimated Total Claims Cost	Average Claim Size \$
A01: Insolvency	618	23,379,271	2,907,052	16,922,685	43,209,008	69,917
A02: Death	10	73,337	10,287	289,356	372,980	37,298
A03: Disappearance	28	589,844	147,353	794,402	1,531,599	54,700
Total	656	24,042,452	3,064,692	18,006,443	45,113,587	68,771

*Open claims are claims which are not finalised.

Table E5. Claims Experience by Claim Code (incl GST) - for Finalised Accepted Claims

Claim Code	No. of Claims	Sum Paid to Claimant	Sum Paid to Third Parties	Total Gross Paid \$	Average Claim Size \$
T01: Failure to commence	93	2,035,568	65,078	2,100,646	22,588
T02: Failure to complete	628	29,928,802	2,116,531	32,045,333	51,028
T03: Structural defect	197	5,759,137	612,024	6,371,161	32,341
T04: Other loss#	210	6,401,766	576,103	6,977,869	33,228
Total	1,128	44,125,273	3,369,736	47,495,009	42,106

Table E6. Claims Experience by Claim Code (incl GST) – for Open Accepted Claims

Claim Code	No. of Claims	Sum of Paid to Claimant	Sum of Paid to Third Parties	Net Outstanding Estimate \$	Estimated Total Claims Cost	Average Claim Size \$
T01: Failure to commence	23	376,694	17,650	225,168	619,512	26,935
T02: Failure to complete	173	8,799,525	980,181	3,463,975	13,243,681	76,553
T03: Structural defect	288	11,601,740	1,259,225	10,149,832	23,010,797	79,899
T04: Other loss#	172	3,264,493	807,636	4,167,468	8,239,597	47,905
Total	656	24,042,452	3,064,692	18,006,443	45,113,587	68,771

'Other loss' claims are generally for non-structural defects.

Table E7. Claims Experience by Type of Cover (incl GST) – for Finalised Accepted Claims

Type of Cover	No. of Claims	Sum of Paid to Claimant	Sum of Paid to Third Parties	Total Gross Paid \$	Average Claim Size \$

E.4 Claims experience by year certificate issued

Table E9. Scheme Claims Experience to date by year of issue of project certificates (incl GST) – for all Accepted liability (finalised and open) claims: **builders and owner-builders**

Certificate calendar year of issue	No. of Claims	Sum of Paid to Claimant	Sum of Paid to Third Parties	Net Outstanding Estimate \$	Estimated Total Claims Cost	Average Claim Size \$
2002 (from 1/7/2002)	109	8,481,518	906,630	2,924,689	12,312,837	112,962
2003	241	9,617,879	1,063,883	2,978,416	13,660,178	56,681
2004	284	11,419,263	1,594,110	3,086,220	16,099,593	56,689
2005	194	6,507,753	858,204	3,159,221	10,525,178	54,253
2006	243	7,565,251	675,375	1,563,658	9,804,284	40,347
2007	490	16,114,661	1,090,750	2,009,281	19,214,692	39,214
2008	241	8,672,919	488,723	2,399,312	11,560,954	47,971
2009	26	1,025,752	22,224	318,254	1,366,230	52,547
Total	1,828	69,404,996	6,699,899	18,439,051	94,543,946	51,720

This table shows the claims experience to date split by the year the project certificate was issued. For reasons explained in Section 2, this data provides an incomplete view of the claims experience for each year. For all years of issue, even for the earliest under the current scheme with certificates issued in 2002 and 2003, the number of claims and amount paid on claims will continue to increase over the next few years because:

- there may be significant delay between the date a project certificate is issued and the commencement of the project;
- the duration of building projects may range from a few weeks to a few years;
- coverage remains in place for six years after project completion; and
- it may take some time for home owners to identify a loss, lodge a claim with an insurer and for the insurer to assess the claim and arrange rectification.

The impact of these factors is even greater for more recent years.

Insurers have also estimated additional costs of \$18m in respect of claims in which liability have **not** been determined.

Insurers do manage to recover some claim payments, generally as creditors of insolvent builders. Since the scheme commenced, some \$2.7m has been recovered or about 3% of estimated total claims cost to date.

A significant proportion of the Accepted Liability claims for project certificates issued in the 2006, 2007 and 2008 calendar years relate to the Beechwood collapse.

Overall for the Scheme, the number of accepted liability claims is up 149 or 9%, and the reported costs up \$13 million or 16%, since the last quarter.

Part II Owner-Builder Information

This section sets out data for owner-builders in a similar format to that shown earlier for builders. Not all tables in Part I have a corresponding table in this section as some data is not relevant or available in respect of owner-builder insurance.

* A project certificate is issued for each unit in a multi-unit development.

Alterations and additions - structural (i.e. the majority of the work is structural)

^ Renovations - non-structural (i.e. the majority of the contract is non structural), including e.g. kitchen/bathroom renovations and trade work.

Sep 09	6.18	0	0	10.69	43.29	13.84	0	7.37
Dec 09	7.20	0	0	10.94	49.41	10.69	0	8.29

* A project certificate is issued for each unit in a multi-unit development.

Alterations and additions - structural (i.e. the majority of the work is structural)

^ Renovations - non-structural (i.e. the majority of the contract is non structural), including e.g. kitchen/bathroom renovations and trade work.

Premium rates for owner-builders are generally higher than for corresponding work done by builders. This may reflect insurer expectations of higher costs of claims for structural and non-structural defects in respect of owner-builders.

OB.D Claims Information- Owner-Builder

OB.E1 Number of claims by liability assessment status – Owner-Builder

Table **OB.E1** Number of Claims by Liability Status at each quarter end

Quarter	Notification only	Liability being assessed	Liability fully, partially or deemed accepted	Liability fully denied	Liability in dispute	Total
Dec 06	3	1	11	34	0	49
Mar 07	3	0	12	35	1	51
Jun 07	3	2	15	39	0	59
Sept 07	4	6	13	39	1	63
Dec 07	2	7	20	48	0	77
Mar 08	2	12	20	50	1	85
Jun 08	2	7	27	54	4	94
Sep 08	4	8	29	60	0	101
Dec 08	3	8	33	65	2	111
Mar 09	3	4	29	64	4	# 104
Jun 09	4	9	34	65	5	117
Sep 09	6	9	37	71	6	129
Dec 09	5	11	44	81	7	148

The decrease in the number of claims as at 31 March 2009 was due to the corrections of some errors in insurers' December 2008 data

OB.E2 Reasons claims denied – Owner-Builder

OB.E3 Claims experience - Owner-Builder

The remaining tables in this section show a further breakdown of the claims as at 31 December 2009 that have been accepted liability as at that date. Both open and finalised claims are included in these tables.

Table OB.E3. Claims Experience by Principal Cause (incl GST) - Accepted* Claims

Principal Cause	No. of Claims Reported	No. of claims Open	Total amounts paid to date \$	Estimated Total Claims Cost \$	Average Claim Size \$
A01: Insolvency	12	7	711,684	985,748	82,146
A02: Death	3	0	37,346	37,346	12,449
A03: Disappearance	29	6	753,713	912,256	31,457
Total	44	13	1,502,743	1,935,350	43,985

*Accepted Claims are those in which liability is partially, fully or deemed accepted by the insurers.

“Total amounts paid to date” includes all payments to the claimant or to suppliers involved in the rectification of the works; payments to third parties such as investigators, loss adjusters, legal expenses, etc.). Insurers’ own claim handling expenses (overheads) are excluded.

Table OB.E4. Claims Experience by Claim Code (incl GST) –Accepted Claims

Claim Code	No. of Claims Reported	No. of claims Open	Total amounts paid to date \$	Estimated Total Claims Cost \$	Average Claim Size \$
T01: Failure to commence	0	0	0	0	0
T02: Failure to complete	0	0	0	0	0
T03: Structural defect	40	11	1,140,750	1,537,933	38,448
T04: Other loss*	4	2	361,993	397,417	99,354
Total	44	13	1,502,743	1,935,350	43,985

* ‘Other loss’ claims are generally for non-structural defects.

Table OB.E5. Claims Experience by Type of Cover (incl GST) – Accepted Claims

Type of Cover	No. of Claims Reported	No. of claims Open	Total amounts paid to date \$	Estimated Total Claims Cost \$	Average Claim Size \$
C01 : New single dwelling construction	36	10	1,150,803	1,447,829	40,217
C02: New multi dwelling (greater than 3 storeys) *	0	0	0	0	0
C03 : New multi dwelling (3 storeys and less) *	1	1	26,287	158,877	158,877
C04 : Alterations/Additions	7	2	325,653	328,644	46,949
C05: Swimming Pools	0	0	0	0	0
C06 : Renovations (including kitchens and bathrooms)	0	0	0	0	0
C07: Other	0	0	0	0	0
Total	44	13	1,502,743	1,935,350	43,985

*Multi-unit claims for common areas are averaged over all units within a development

Disappearance of builder is the dominant cause of claims with respect to owner-builders, in contrast to claims against builders which are predominantly in respect of builder insolvency. Non-commencement and non-completion are, of course, irrelevant as to the circumstances giving rise to claims against owner-builders.
