

NSW Home Warranty Insurance Scheme

Information on the Scheme as at

30 June 2008

3 November 2008

Office of Fair Trading
NSW Department of Commerce
201 Elizabeth Street
SYDNEY NSW 2000

Dear Sirs

HWI Scheme Data as at 30 June 2008

Finit Consulting Pty Limited (Finit) was engaged by the Office of Fair Trading to review the publication of data for the Home Warranty Insurance (HWI) Scheme.

Finit has reviewed the descriptions of the data and the presentation of tables and graphs to make sure the data is presented fairly and is not likely to be misinterpreted. Note that Finit has not reviewed the accuracy of the data provided by the insurers nor the accuracy of the summary tables prepared by Fair Trading, but, where possible, has considered them for reasonableness.

This is the first report which includes data from the collapse of Beechwood Homes in May 2008. However, most Beechwood claims were still in the early stages of the assessment process at 30 June, so the full number and cost of these claims is not yet reflected in the scheme data.

We particularly draw the attention of the reader to Section 2 of the publication – Caution in Interpreting the Information.

Yours sincerely

HWI SCHEME INFORMATION

1 PREAMBLE

The *Home Building Act 1989* establishes a home warranty insurance (HWI) scheme. The scheme involves approved private insurers and provides protection for consumers where builders fail to complete residential building work or rectify defects.

The Office of Fair Trading, within the Department of Commerce, has certain regulatory responsibilities in relation to home warranty insurance. One of the roles of Fair Trading is to collect data from insurers offering HWI to enable monitoring of the financial progress of the scheme.

In New South Wales, HWI may only be offered by insurers approved by the Minister under the Act. As at 30 June 2008, there were five groups of licensed insurers approved to offer HWI in New South Wales.

Since September 2005 insurers in the HWI scheme have been providing data on a quarterly basis to Fair Trading. The following information on the operation of the scheme applies only to the version of the scheme in operation since 1 July 2002 which from that date made it clear that the protection offered applied only in the event of the death, disappearance or insolvency of a builder. Legislation passed the Legislative Assembly in September 2008 to extend cover where a builder fails to comply with a monetary order of the Consumer, Trader and Tenancy Tribunal; if passed by the Legislative Council it is intended to come into force on 1 April 2009.

This publication summarises the data that has been provided since June 2006 for the insurance period 1 July 2002 to 30 June 2008. The information provided has been aggregated across insurers. Data provided by individual insurers is commercially confidential and has not been disclosed.

2 CAUTION IN INTERPRETING THE INFORMATION

The current version of the HWI scheme is at an early stage of evolution. As a result, considerable caution is required when interpreting the information provided in this publication.

HWI is a 'long tail' class of insurance business, which means:

- there may be significant delay between the date a project certificate is issued and the commencement of the project;
- the duration of building projects may range from a few weeks to several years;
- coverage remains in place for six years after project completion; and
- it may take some time for home owners to identify a loss, lodge a claim with an insurer and for the insurer to assess the claim and arrange rectification.

Therefore, care must be taken in basing conclusions on trends that have emerged to date. The data in this publication relates only to project certificates issued from 1 July 2002 and to claims that have been notified to date notified on those certificates. **It does NOT include claims that have not yet reported to insurers on those certificates or any provisions made by insurers in their accounts for the cost of unreported claims or cost escalation on reported claims.** Experience with the former Government administered schemes showed that claims may be lodged with insurers as long as ten years after the issue of HWI. This is the first time that claims from the collapse of Beechwood Homes have been reported: as noted in Section 3E, most of these are still under negotiation.

It is only possible to make an assessment of the financial performance of the HWI scheme by comparing premiums collected with all the relevant costs of insurers over the full life of the HWI cover. At this time, there is insufficient information to make such an assessment although useful information will emerge as the business matures.

Claims experience of HWI can vary greatly from year to year depending on economic conditions in both the home building market and in the community generally. The nature of insurance is also that there are good years and bad years depending on the state of the insurance cycle and the degree of competition in the insurance market both in Australia and globally. For the first few years since the new HWI scheme commenced, the NSW economy performed reasonably well, and conditions were generally favourable for home builders. As over 90% of home warranty claims arise from the insolvency of the builder, the current downturn in the economy could see a significant increase in claims on the scheme as even some larger builders are subject to material financial stress. Poor business decisions are also more likely to convert into business failure if additional financing is unexpectedly required when lending or investing conditions are tight. Any serious assessment of the scheme should place substantial weight not only on the long tail nature of the scheme, but also that different economic circumstances can yield significantly different claims results.

3 DATA

Part I Information Related only to Licensed Builders

A Eligibility Information

Under the HWI scheme, licensed builders may apply to an insurer of their choice for HWI eligibility. Eligibility is a form of pre-approval for the issue of HWI project certificates. Eligibility for HWI does not apply to owner-builders.

A.1 Builder eligibilities

Table **A1** shows the number of builder eligibilities at the end of each quarter by turnover band. It excludes builders with eligibility pending, but includes builders who may have eligibility with more than one insurer at the time of reporting. Turnover refers to the total annual turnover for which the builder has eligibility from the insurer at the end of the quarter for all types of cover.

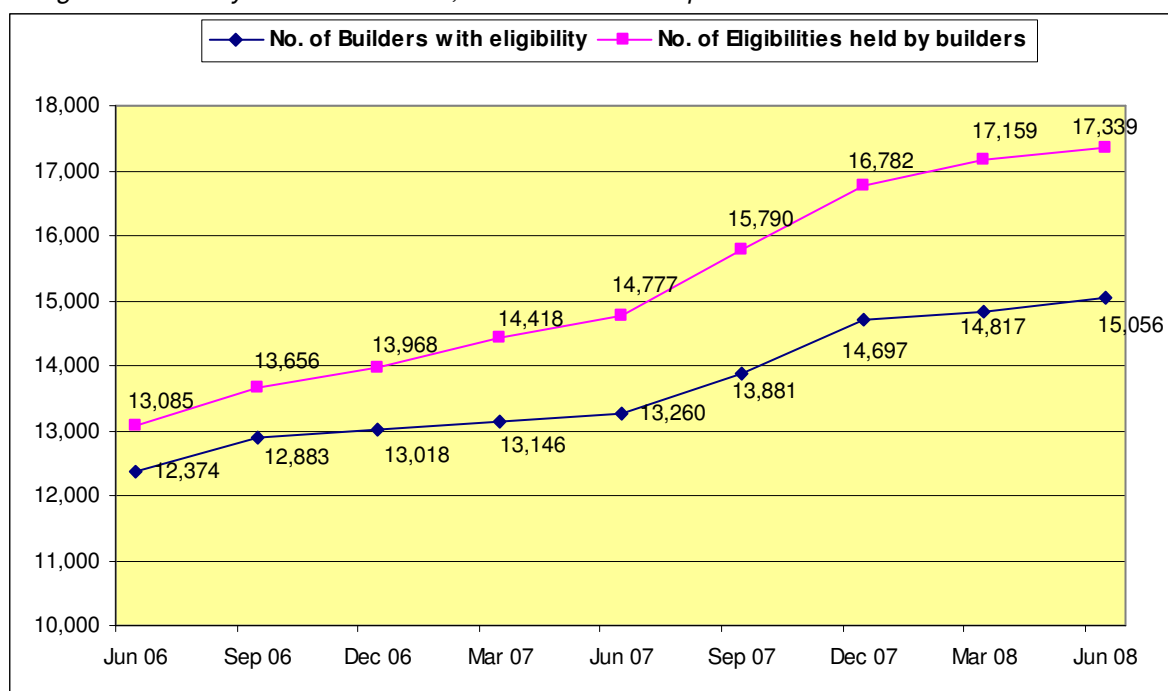

Table A1 Number of builder eligibilities by turnover band

Turnover band (\$' m)	\$0 - <0.5m	\$0.5 - <1m	\$1 - <2m	\$2 - <3m	\$3 - <5m	\$5 - <20m	\$20+m	Change in Turnover Requested	unlimited	Totals
Jun 06	1,034	1,256	4,356	4,305	855	728	113	135	303	13,085
Sep 06	1,174	1,399	4,527	4,450	821	699	107	139	340	13,656
Dec 06	1,292	1,426	4,576	4,469	879	702	105	141	378	13,968
Mar 07	1,364	1,498	4,528	4,451	1,156	755	108	145	413	14,418
Jun 07	1,299	1,405	4,126	3,977	2,581	769	108	135	377	14,777
Sept 07	1,526	1,528	4,356	4,010	2,980	832	122	11	425	15,790
Dec 07	1,708	1,668	4,561	4,168	3,166	904	117	3	487	16,782
Mar 08	1,738	1,718	4,651	4,160	3,383	911	131	59	408	17,159
Jun 08	2,081	1,777	4,528	4,024	3,499	903	134	107	286	17,339

Most licensed builders have eligibility for annual turnover within the \$1 million to less than \$5 million bands.

As at 30 June 2008, around 2,100 builders (or 14% of the total 15,000 eligible builders) had established eligibility for cover with two or more insurers. Last quarter, the proportion was 15%.

Figure A1 - Trend in: a) number of licensed builders with eligibility, and b) number of current eligibilities held by licensed builders, as at end of each quarter

B Securities and Indemnities Information

In some circumstances an insurer may require a security or indemnity of some form before granting eligibility to a builder. The most common form of security is an indemnity (usually provided by an individual director or other third party) and/or a bank guarantee. The information on securities does not include owner-builders.

B.1 Number and type of securities held by insurers

Table B1 Number of Securities and Indemnities – current as at end of each quarter

Quarter	Bank Guarantee	Indemnity	Multiple Securities	Other Security	Totals	% of Total Builder Eligibility
Jun 06	377	*266	10	5	658	5.0%
Sep 06	339	*719	9	3	1,070	7.8%
Dec 06	221	1,212	68	2	1,503	10.8%
Mar 07	227	1,262	76	4	1,569	10.9%
Jun 07	209	1,312	123	4	1,648	11.2%
Sept 07	227	1,380	133	4	1,744	11.0%
Dec 07	229	1,354	132	4	1,719	10.2%
Mar 08	207	1,461	144	2	1,814	10.6%
Jun 08	139	1,381	120	1	1,641	9.5%

* The increase in the number of indemnities between the June and December 2006 quarters is attributable to one insurer being previously unable to provide data on all job specific and builder deeds of indemnity and one insurer being previously unable to provide data on deeds of indemnity relating to business which it acquired from another insurer.

Since the June 2006 quarter there has been a shift from bank guarantees to indemnities and multiple securities as a preferred form of security. As at 30 June 2008, 9.5% of builder eligibilities were subject to some form of security being in place. This continues the general downward trend over the last 12 months in the proportion of builders required to provide security. Looked at another way, over 90% of builders receive eligibility for insurance cover without having to provide any form of security to the insurer.

B.2 Dollar value of securities held over the past year

Table B2 Value of Securities and Indemnities (\$'000) - current as at end of each quarter

Quarter	Bank Guarantee	Indemnity *	Multiple Securities#	Other Security	Totals
Jun 06	50,636	N/A	2,361	23	53,020
Sep 06	44,000	N/A	2,186	26	46,212
Dec 06	26,519	N/A	10,643	15	37,177
Mar 07	28,935	N/A	10,968	19	39,922
Jun 07	24,739	N/A	14,582	122	39,443
Sep 07	26,740	N/A	16,679	122	43,541
Dec 07	26,077	N/A	16,614	109	42,800
Mar 08	23,749	N/A	18,469	14	42,232
Jun 08	16,718	N/A	15,832	14	32,564

* No value is required to be placed on an indemnity.

Identifies those builders with more than one form of security, such as a bank guarantee, a group trading agreement (involving associated companies) and/or an indemnity.

B.3 Average value of securities and indemnities over the period

Table B3. Average Value of Securities and Indemnities (\$'000)

Quarter	Bank Guarantee	Indemnity *	Multiple Securities	Other Security
Jun 06	134	N/A	236	5
Sep 06	130	N/A	243	9
Dec 06	120	N/A	157	8
Mar 07	127	N/A	144	5
Jun 07	118	N/A	119	30
Sep 07	118	N/A	125	31
Dec 07	114	N/A	126	27
Mar 08	115	N/A	128	7
Jun 08	120	N/A	132	14

* No value is required to be placed on an indemnity.

The average value of bank guarantees reported by insurers has generally reduced since June 2006, stabilising at around \$120,000 in the past 12 months in respect of those 1% of builders required to lodge them.

C Project Certificate Information – Builder

Generally an insurer issues a project certificate in relation to a project prior to building commencement. The project certificate is evidence of the HWI contract.

Insurers report to Fair Trading on the number of project certificates issued during each quarter and the number of project certificates for projects still in progress (current) at the end of the quarter. This latter figure involves some degree of estimation as insurers are not necessarily advised by builders on whether all individual projects are complete or still in progress.

C.1 Current project certificates - Builder

Figure C1 shows the trend in the total number of current project certificates for “work in progress” as at the end of each quarter as reported by insurers. These figures do not include owner builder projects.

Since December 2007, insurers have been reminded to assume that a project has been completed after 12 months if they do not know its status. The decrease in number of current project certificates as at 31 March 2008 was mainly due to overcoming a backlog of lapsed/deemed completed project certificates from preceding quarters. The data for December 2007 and earlier quarters is therefore overstated as it includes a number of projects that should have been deemed completed.

Figure C1 Trend in total number of current project certificates - as at the end of each quarter

C.2 New project certificates issued - Builder

Tables C1, C2 and figure C2.1 show the number and value of new project certificates issued during the quarter, reduced by the number (or value) of project certificates cancelled in the quarter. A cancellation occurs when a project certificate is terminated because the project did not commence.

If a project certificate applies to more than one type of cover, then it is classified under the type of cover that represents the greatest value under the contract.

Table C1. Number of project certificates issued by type of cover

Quarter /Type of cover	New single dwelling construction	New multi dwelling (greater than 3 storeys) *	New multi dwelling (3 storeys or less) *	Alterations /Additions #	Swimming Pools	Renovations (including kitchens and bathrooms) ^	Other	Totals
Jun 06	4,089	41	1,439	3,402	1,703	2,995	211	13,880
Sep 06	3,961	0	1,719	3,677	1,632	3,027	283	14,299
Dec 06	3,548	33	1,331	3,104	1,407	2,664	350	12,437
Mar 07	3,453	24	1,348	3,369	1,161	2,580	240	12,175
Jun 07	4,016	0	1,280	3,738	1,254	2,715	222	13,225
Sept 07	4,227	0	1,358	4,129	1,383	3,760	165	15,022
Dec 07	4,222	0	1,249	3,834	1,580	3,488	234	14,607
Mar 08	3,702	0	970	4,030	1,043	3,551	207	13,503
Jun 08	3,881	0	983	4,221	1,019	3,881	253	14,238

* A project certificate is issued for each unit in a multi-unit development.

Alterations and additions - structural (i.e. the majority of the work is structural).

^ Renovations - non-structural (i.e. the majority of the contract is non structural), including e.g. kitchen/bathroom renovations and trade work.

More than half of the project certificates issued in June 2008 were for alterations (30%) and renovations (27%). 34% of certificates were issued for new single and multi-unit dwellings.

The number of certificates issued is up 5% compared with the previous quarter. Over the 12 months to June 2008, 57,370 certificates were issued compared to 52,136 in the previous 12 months, an increase of 10%. Certificates issued for renovations and alterations were up 24%, and new single dwelling construction certificates issued increased 7% over the year, with swimming pools down 8% and multi-dwellings down 20%.

Alterations and additions - structural (i.e. the majority of the work is structural)

^ Renovations - non-structural (i.e. the majority of the contract is non structural), including e.g. kitchen/bathroom renovations and trade work.

D Premium Information - Builder

Insurers provide information to Fair Trading on the premium charged for project certificates issued to builders during the quarter. For the reports below, premium is shown on two bases: including charges and excluding charges. "Charges" refer to all commissions, government and other charges (i.e. GST, stamp duty, government levies and credit card surcharges) as reported by insurers to Fair Trading.

Premium excluding charges is the amount retained by the insurer to pay claims and the insurer's expenses.

Premium including charges is intended to represent the amount paid by the builder including statutory charges such as GST. However, it excludes any fees charged by brokers or intermediaries in addition to the insurer's premium. Based on information received from insurers, such brokerage fees are understood generally to be a flat dollar amount per certificate ranging from \$50 to \$400 depending on the volume of business of a particular broker with a particular builder. Any margin added by the builder in on-charging the premium to consumers also is not captured in the insurers' data and is therefore not reported in the figures below.

As at 30 Jun 2008 there were five groups of licensed insurers providing home warranty insurance in New South Wales. There appears to be competition among insurers: one group has about 40% market share (in terms of reported total written premium including charges) with each of the other groups holding between 10% and 20% of the market.

D.1 Total premiums by project type - Builder

Alterations and additions - structural (i.e. the majority of the work is structural)

^ Renovations - non-structural (i.e. the majority of the contract is non structural), including e.g. kitchen/bathroom renovations and trade work.

Average premium rates per \$1,000 of project value have fallen 17% between the June 2007 and June 2008 quarters. Reductions have occurred across each type of building work in that 12 month period.

E Claims information - Builder

The handling and management of claims by insurers is subject to *Claims Handling Guidelines* that are available on the Fair Trading website. Fair Trading is provided with data at the end of each quarter of all claims received by insurers in respect of HWI business issued after 1 July 2002.

The information set out below provides only a partial picture of HWI Scheme activity. Therefore, care must be taken in basing conclusions on trends that have emerged to date. The data in this publication relates only to project certificates issued from 1 July 2002 and to claims that have been notified to date notified on those certificates. **It does NOT include claims that have not yet reported to insurers on those certificates or any provisions made by insurers in their accounts for the cost of unreported claims or cost escalation on reported claims.** Also, it does not include any information on claims arising from project certificates issued prior to 1 July 2002, even though claims relating to prior years continue to be reported and settled in the post 1 July 2002 period.

The significant increase in claims being assessed in the June 2008 quarter shown in Table E.1 was largely driven by the Beechwood Homes collapse in May 2008. As at 30 June most of these claims were still only notifications or in the process of being assessed, so at this stage few Beechwood claims are included in the statistics for accepted claims in the following tables.

E.1 Number of claims by liability assessment status - Builder

Table E1 Cumulative Number of Claims by Liability Status at each quarter end

Quarter	Notification only or Liability being assessed	Liability fully, partially or deemed accepted	Liability fully denied	Liability in dispute	Total
Jun 06	344	177	117	0	638
Sep 06	371	203	129	0	703
Dec 06	279	275	136	60	750
Mar 07	291	314	150	61	816
Jun 07	335	350	174	62	921
Sept 07	359	434	186	66	1,045
Dec 07	416	491	206	62	1,175
Mar 08	516	528	223	76	1,343
Jun 08	1,082	667	245	12	2,006

E.2 Reasons claims denied - Builder

Table E2. Liability fully denied – breakdown by Reason Claim Declined – cumulative at end of each quarter

Quarter	Out of time	Builder found	Builder not dead	Builder not insolvent	Not deemed a defect	Reason not available from insurer #	Total
Jun 06	16	3		20	29	49	117
Sep 06	17	6		26	28	52	129
Dec 06	17	6		29	33	51	136
Mar 07	17	20		35	41	37	150
Jun 07	35	22		38	42	37	174
Sept 07	37	24		41	47	37	186
Dec 07	38	29	1	51	50	37	206
Mar 08	40	30	1	60	92	0	223
Jun 08	40	34	1	64	106	0	245

refers to claims declined by an insurer prior to the commencement of the data reporting requirements where the reason for the claim being declined was not reported in the insurer's systems. As at 31 March 2008, insurers have identified the cause of all declined claims.

E.3 Claims experience - Builder

The remaining tables in this section show a further breakdown of the claims that have been accepted in respect of builders (not owner-builders). Information is shown separately between (a) claims that are finalised with all costs known and (b) those that are open, in which case at least part of the cost is an estimate of future payments.

Table E3. Claims Experience by Principal Cause (incl GST) – for Finalised Accepted* Claims as at 30 June 2008

Principal Cause	No. of Claims	Sum Paid to Claimant	Sum Paid to Third Parties	Total Gross Paid \$	Average Claim Size \$
A01: Insolvency	286	13,001,040	1,096,513	14,097,553	49,292
A02: Death	9	362,308	18,788	381,096	42,344
A03: Disappearance	11	515,826	37,694	553,520	50,320
Total	306	13,879,174	1,152,995	15,032,169	49,125

*Accepted Claims are those in which liability is partially, fully or deemed accepted by the insurer.

“Paid to Claimant” includes all payments to the claimant or to suppliers involved in the rectification of the works. “Paid to Third Parties” includes payments to investigators, loss adjusters, legal expenses, etc) but not insurers’ claims handling expenses (overheads).

Table E4. Claims Experience by Principal Cause (incl GST) – for Open* Accepted Claims as at 30 June 2008

Principal Cause	No. of Claims	Sum of Paid to Claimant	Sum of Paid to Third Parties	Net Outstanding Estimate \$	Estimated Total Claims Cost	Average Claim Size \$
A01: Insolvency	347	8,567,377	1,387,818	6,975,409	16,930,604	48,791
A02: Death	2	22,393	2,342	34,255	58,990	29,495
A03: Disappearance	12	173,991	32,520	255,118	461,629	38,469
Total	361	8,763,761	1,422,680	7,264,782	17,451,223	48,341

*Open claims are claims which are not finalised.

Table E5. Claims Experience by Claim Code (incl GST) – for Finalised Accepted Claims - as at 30 June 2008

Claim Code	No. of Claims	Sum Paid to Claimant	Sum Paid to Third Parties	Total Gross Paid \$	Average Claim Size \$
T01: Failure to commence	6	73,869	2,590	76,459	12,743
T02: Failure to complete	166	10,362,685	727,018	11,089,703	66,805
T03: Structural defect	38	1,009,465	169,507	1,178,972	31,026
T04: Other loss#	96	2,433,155	253,880	2,687,035	27,990
Total	306	13,879,174	1,152,995	15,032,169	49,125

Table E6. Claims Experience by Claim Code (incl GST) – for Open Accepted Claims - as at 30 June 2008

Claim Code	No. of Claims	Sum of Paid to Claimant	Sum of Paid to Third Parties	Net Outstanding Estimate \$	Estimated Total Claims Cost	Average Claim Size \$
T01: Failure to commence	3	131,438	4,136	4,952	140,526	46,842
T02: Failure to complete	126	4,954,388	710,362	1,904,529	7,569,279	60,074
T03: Structural defect	167	2,684,702	386,360	3,262,765	6,333,827	37,927
T04: Other loss #	65	993,233	321,822	2,092,536	3,407,591	52,424
Total	361	8,763,761	1,422,680	7,264,782	17,451,223	48,341

'Other loss' claims are generally for non-structural defects.

Table E7. Claims Experience by Type of Cover (incl GST) – for Finalised Accepted Claims - as at 30 June 2008

Type of Cover	No. of Claims	Sum of Paid to Claimant	Sum of Paid to Third Parties	Total Gross Paid \$	Average Claim Size \$
C01 : New single dwelling construction	139	8,665,341	679,975	9,345,316	67,232
C02: New multi dwelling (greater than 3 storeys) *	0	0	0	0	0

Total	306	13,879,174	1,152,995	15,032,169	49,125

Table E8. Claims Experience by Type of Cover (incl GST) – for Open Accepted Claims - as at 30 June 2008

Type of Cover	No. of Claims	Sum of Paid to Claimant	Sum of Paid to Third Parties	Net Outstanding Estimate \$	Estimated Total Claims Cost	Average Claim Size \$
C01 : New single dwelling construction	134	4,552,154	615,001	2,242,591	7,409,746	55,297
C02: New multi dwelling (greater than 3 storeys) *	3	13,400	31,171	173,047	217,618	72,539
C03 : New multi dwelling (less than or equal 3 storeys) *	63	1,191,726	372,004	3,012,689	4,576,419	72,642
C04 : Alterations/Additions	130	2,678,310	339,045	1,371,572	4,388,927	33,761
C05: Swimming Pools	21	95,888	40,822	259,594	396,304	18,872
C06 : Renovations (including kitchens and bathrooms)	9	232,283	23,108	173,694	429,085	47,676
C07: Other	1	0	1,529	31,595	33,124	33,124
Total	361	8,763,761	1,422,680	7,264,782	17,451,223	48,341

*Multi-unit claims for common areas are averaged over all units within a development

A comparison of the claim data from this and previous quarterly reports indicates that failure to complete claims are generally finalised more quickly than structural defect claims, although failure to complete claims generally cost about twice as much as those for structural defects. Claims under cover for new dwellings are generally more expensive than those for additions, which in turn are generally more expensive than renovation claims – this will also reflect the different nature of some of the work involved as well as relative project values. Similarly, data in this report indicates that claims for dwellings and alterations are considerably more frequent than those for renovations after allowing for the number of project certificates issued.

E.4 Claims experience by year certificate issued

*Table E9. Scheme Claims Experience as at 30 June 2008
By year of issue of project certificates (incl GST) – for all Accepted (finalised and open) claims, inclusive of builders and owner-builders.*

Certificate calendar year of issue	No. of Claims	Sum of Paid to Claimant	Sum of Paid to Third Parties	Net Outstanding Estimate \$	Estimated Total Claims Cost	Average Claim Size \$
2002 (from 1/7/2002)	72	3,400,066	387,023	1,495,615	5,282,704	73,371
2003	143	5,149,564	655,279	2,098,353	7,903,196	55,267
2004	262	5,780,327	874,641	1,968,589	8,623,557	32,914
2005	95	3,415,388	384,930	917,344	4,717,662	49,660
2006	85	3,355,912	252,836	878,632	4,487,380	52,793
2007	37	1,843,307	135,185	324,700	2,303,192	62,248
2008	0	0	0	0	0	0
Total	694	22,944,564	2,689,894	7,683,233	33,317,691	48,008

NOTE: In the March 2008 report, there were separate tables for this builder and owner-builder data

This table shows the claims experience to date split by the year the project certificate was issued. For reasons explained in Section 2, this data provides an incomplete view of the claims experience for each year. Even for the earliest certificates under the current scheme (those issued in 2002 and 2003), the number of claims and amount paid on claims will continue to increase over the next few years because:

- there may be significant delay between the date a project certificate is issued and the commencement of the project;
- the duration of building projects may range from a few weeks to a few years;
- coverage remains in place for six years after project completion; and
- it may take some time for home owners to identify a loss, lodge a claim with an insurer and for the insurer to assess the claim and arrange rectification.

For more recent years, the impact of these factors is even greater.

Insurers do manage to recover some claim payments, generally as creditors of insolvent builders. Since the scheme commenced, some \$935,000 has been recovered in respect of finalised claims and \$354,000 in respect of open claims. That represents about 4% of estimated total claims cost to date.

Comparing the data in this table with the March 2008 report, we note considerable development in both claim numbers reported and in claim costs, even for comparatively old years:

- Claims reported for 2004 are up by 83 or 46% over the position at the end of March
- Claim numbers for 2005 are up by 15 or 19% since the end of March
- Reported claim costs in both those years are 25% higher than at the end of March

These developments reinforce the comments made earlier that claims in this class of business can take a considerable time to emerge and develop, given the nature of the insurance cover provided.

Part II Owner-Builder Information

This section sets out data for owner-builders in a similar format to that shown earlier for builders. Not all tables in Part I have a corresponding table in this section as some data is not relevant or available in respect of owner-builder insurance.

OB.C Project Certificate information – Owner-Builder

OB.C2 New project certificates issued – Owner-Builder

Table OB.C2. Number of project certificates issued by type of cover

Quarter /Type of cover	New single dwelling construction	New multi dwelling (greater than 3 storeys) *	New multi dwelling (3 storeys or less) *	Alterations /Additions #	Swimming Pools	Renovations (including kitchens and bathrooms) ^	Other	Totals
Jun 06	314	0	15	140	4	22	3	498

Mar 08	6.45	0	6.85	9.26	34.25	11.51	13.71	7.32
Jun 08	6.16	0	9.13	8.51	35.91	10.96	21.35	6.94

* A project certificate is issued for each unit in a multi-unit development.

Alterations and additions - structural (i.e. the majority of the work is structural)

^ Renovations - non-structural (i.e. the majority of the contract is non structural), including e.g. kitchen/bathroom renovations and trade work.

Average premium rates in each quarter of 2007/2008 are less than the corresponding quarter of 2006, suggesting that rates for owner-builders have also been subject to competitive pressure over the last year. However, the percentage reductions are generally less than builders have experienced. It can be noted that premium rates for owner-builders are generally higher than for corresponding work done by builders. This may reflect insurer expectations of higher costs of claims particularly for structural and non-structural defects in respect of owner-builders.

OB.E Claims information – Owner-Builder

OB.E1 Number of claims by liability assessment status – Owner-Builder

OB.E3 Claims experience - Owner-Builder

The remaining tables in this section show a further breakdown of the claims that have been accepted. Both open and finalised claims are included in these tables.

Table OB.E3.Claims Experience by Principal Cause (incl GST) - Accepted* Claims as at 30 June 2008

Principal Cause	No. of Claims Reported	No. of claims Open	Total amounts paid to date \$	Estimated Total Claims Cost \$	Average Claim Size \$
A01: Insolvency	5	3	131,303	372,033	74,407
A02: Death	2	1	25,509	34,613	17,307
A03: Disappearance	20	7	259,037	427,654	21,383
A04: Cause not yet determined	0	0	0	0	0
Total	27	11	415,849	834,300	30,900

*Accepted Claims are those in which liability is partially, fully or deemed accepted by the insurers.

“Total amounts paid to date” includes all payments to the claimant or to suppliers involved in the rectification of the works; payments to third parties such as investigators, loss adjusters, legal expenses, etc). Insurers’ own claim handling expenses (overheads) are excluded.

Table **OB.E4.** Claims Experience by Claim Code (incl GST) –Accepted Claims - as at 30 June 2008

Claim Code	No. of Claims Reported	No. of claims Open	Total amounts paid to date \$	Estimated Total Claims Cost \$	Average Claim Size \$
T01: Failure to commence	0	0	0	0	0
T02: Failure to complete	0	0	0	0	0
T03: Structural defect	25	10	409,702	785,609	31,424
T04: Other loss*	2	1	6,147	48,691	24,345
Total	27	11	415,849	834,300	30,900

* 'Other loss' claims are generally for non-structural defects.

Table **OB.E5.** Claims Experience by Type of Cover (incl GST) –Accepted Claims - as at 30 June 2008
