

NSW Home Warranty Insurance Scheme

Information on the Scheme as at

30 September 2012

17 April 2013

Home Warranty Insurance Scheme Board
NSW Fair Trading
Department of Finance and Services
1 Fitzwilliam Street
Parramatta NSW 2150

Dear Members of the Board

HWI Scheme Data as at 30 September 2012

Finity Consulting Pty Limited (Finity) was engaged by NSW Fair Trading to review the publication of data for the Home Warranty Insurance (HWI) Scheme.

Finity has reviewed the descriptions of the data and the presentation of tables and graphs to make sure the data is presented fairly and is not likely to be misinterpreted. Note that Finity has not reviewed the accuracy of the data provided by the insurers nor the accuracy of the summary tables prepared by Fair Trading, but, where possible, has considered them for reasonableness.

We particularly draw the attention of the reader to Section 2 of the publication – Caution in Interpreting the Information.

Yours sincerely

David Minty

Mark Hurst

Fellows of the Institute of Actuaries of Australia

Home Warranty Insurance Scheme Information

1 PREAMBLE

The *Home Building Act 1989* establishes a home warranty insurance (HWI) scheme. The scheme provides protection for consumers where builders fail to complete residential building work or rectify defects.

In New South Wales, HWI may only be offered by licensed insurers approved by the Minister under the Act. The NSW Self Insurance Corporation became the sole provider of home warranty insurance in NSW from 1 July 2010. The Corporation trades as the NSW Home Warranty Insurance Fund (HWIF) and is a part of NSW Treasury. The Scheme is underwritten and capitalised by the Government and funded by warranty insurance premiums.

The approved insurers from the private sector all ceased writing business on or before 30 June 2010. However, all approved insurers will continue to manage and settle claims on policies written up until that date.

QBE Insurance (Australia) Limited and Calliden Insurance Limited have been appointed as insurance agents of the NSW Self Insurance Corporation through contractual arrangements. Vero Insurance Limited was also an agent for the three months to 30 September 2010.

HWI Scheme Data

NSW Fair Trading, within the Department of Finance and Services, has certain regulatory responsibilities in relation to home warranty insurance. One of the roles of Fair Trading is to collect data on claims and policies from insurers in order to be able to monitor the operation of the scheme.

Since September 2005 insurers in the HWI scheme have been providing data on a quarterly basis to Fair Trading. The following information on the operation of the scheme applies only to the version of the scheme in operation since 1 July 2002, in which the protection offered applies only in the event of the death, disappearance or insolvency of a builder. For policies issued from 19 May 2009, cover extends to situations where a builder's licence is suspended for a failure to comply with a mandatory monetary order of the Consumer, Trader and Tenancy Tribunal or a court in favour of the homeowner.

This publication summarises the data that has been provided since June 2006 for the insurance period 1 July 2002 to 30 September 2012. The information provided has been aggregated across insurers. Data provided by individual insurers is commercially confidential and has not been disclosed.

Further information on the operation of the scheme is available on the following websites:

NSW Fair Trading: http://www.fairtrading.nsw.gov.au/Tradespeople/Home_warranty_insurance.html

Home Warranty Insurance Fund: <http://www.homewarranty.nsw.gov.au>

2 CAUTION IN INTERPRETING THE INFORMATION

HWI is a 'long tail' class of insurance business, which means:

- there may be significant delay between the date a project certificate is issued and the commencement of the project;
- the duration of building projects may range from a few weeks to several years;
- coverage remains in place for six years after project completion; and
- it may take some time for home owners to identify a loss, lodge a claim with an insurer and for the insurer to assess the claim and arrange rectification.

Claims experience of HWI can vary greatly from year to year depending on economic conditions in both the home building market and in the community generally. Since the adoption of the single insurer model from 1 July 2010, insurance market cycles are only likely to impact the scheme to the extent that the insurer seeks to obtain reinsurance cover from the commercial insurance market.

For the first few years after the current HWI scheme commenced in 2002, the NSW economy performed reasonably well, and conditions were generally favourable for home builders. As over 90% of home warranty claims arise from the insolvency of the builder, the downturn in the economy in 2008 drove a significant increase in claims on the scheme as even some larger builders have failed. Poor business decisions are also more likely to convert into business failure if additional financing is unexpectedly required or existing loans need to be renegotiated or rolled over when lending or investing conditions are tight. Any serious assessment of the scheme should place substantial weight not only on the long tail nature of the scheme, but also that different economic circumstances can yield significantly different claims results.

As the cover provided by HWI insurers extends over at least six years from completion of work, the downturn in the building industry since 2008 has given rise to claims because structural defects now emerging may involve builders that have become insolvent since then. As a consequence, the claim experience of even early underwriting years has continued to deteriorate. During the 12 months to September 2012, there has been a significant increase of \$141 million, or 64%, in the overall estimated net incurred claims cost reported by the scheme insurers. This illustrates the point made earlier that it takes many years for the ultimate experience of this class of business to emerge.

3 DATA

Part I Information Related only to Licensed Builders

A Eligibility Information

'Eligibility' is the term used to describe the entitlement that a builder has to apply for a Certificate of Insurance for home building projects, and the conditions under which the Certificate of Insurance may be granted. From 1 July 2010, eligibility application may be made via an insurance broker to one of HWIF's Insurance Agents.

A.1 Builder eligibilities

Table A1 shows the number of builder eligibilities at the end of each quarter by turnover band. It includes builders who may have eligibility via more than one insurer /agent at the time of reporting (refer note #2 below). Turnover refers to the total annual turnover for which the builder has eligibility from the insurer at the end of the quarter for all types of cover.

Table A1 Number of builder eligibilities by turnover band

Turnover band (\$' m)	\$0 - <0.5m	\$0.5 - <1m	\$1 - <2m	\$2 - <3m	\$3 - <5m	\$5 - <20m	\$20+m	Change in Turnover Requested	unlimited	Totals

Sep 12	3,157	2,729	4,618	2,241	2,121	621	74	0	0	15,561

Notes:

#1 As at September 2009 the high proportion of builders with eligibility from multiple insurers was largely due to existing builders who were then insured by CGU and Lumley, obtaining alternative eligibility with the remaining insurers. During the December 2009 quarter, as CGU and Lumley withdrew from the market, the total number of builders with multiple eligibilities fell accordingly.

#2. Vero ceased as an insurance agent for the HWIF as at 1 October 2010. The multiple eligibility cleansing process implemented by HWIF has resulted in all builders having only one active eligibility at any one time through either one of the agents QBE or Calliden as at 31 December 2010. Consequently, the number of builder eligibilities fell by 8% as at that date.

#3 The drop in the number of current builder eligibilities as at 30 September 2011 was mainly due to the removal of around 1,400 non-current (expired, cancelled or surrendered) licences included in prior quarters.

As at 30 September 2012, the proportion of builders with eligibility for annual turnover are: less than \$1 million: 38%, \$1m to less than \$5m: 58%, and \$5m and over: 4%, largely unchanged from last quarter.

Figure A1 - Trend in: a) number of licensed builders with eligibility, and b) number of current eligibilities held by licensed builders, as at end of each quarter

B Securities and Indemnities Information

For a relatively small proportion of builders, the HWIF may require security as a condition of approving eligibility or providing home warranty cover for a specific project. This will generally be provided in the form of a Deed of Indemnity.

Bank guarantees are not sought by the HWIF for security although a builder can provide a bank guarantee if the builder chooses to do so. As noted in the table below, the HWIF has received its first bank guarantee as a security during the September 2012 quarter from a builder as the preferred option of that builder in order to satisfy the HWIF's eligibility underwriting criteria.

The HWIF reports to Fair Trading each quarter regarding the security held for builders with current eligibility as at the end of the quarter. Securities provided prior to 1 July 2010 by builders to former insurers are unable to be transferred to the HWIF, and will remain in place until they are released by the insurers - such securities are not included in the HWIF report.

B.1 Securities held by insurers for builders with current eligibility

Table B1 Number of Securities held by insurers for builders with current eligibility as at end of each quarter

C Project Certificate Information – Builder

Generally a project certificate is issued in relation to a project prior to building commencement. The project certificate is evidence of the HWI contract. Insurers report to Fair Trading the number of project certificates issued during the quarter, and the number of project certificates for projects still in progress (current) at the end of the quarter. For the purpose of this report, building works are deemed completed 12 months after certificate issue date.

C.1 Current project certificates - Builder

Figure C1 shows the trend in the total number of current project certificates for “work in progress” as at the end of each quarter. These figures do not include owner builder projects.

Figure C1 Trend in total number of current project certificates - as at the end of each quarter

C.2 New project certificates issued - Builder

Tables C1, C2 and figure C2.1 show the number and value of new project certificates issued during the quarter, reduced by the number (or value) of project certificates cancelled in the quarter. A cancellation occurs when a project certificate is terminated because the project did not commence. If a project certificate applies to more than one type of cover, then it is classified under the type of cover that represents the greatest value under the contract.

Table C1. Number of project certificates issued by type of cover

Quarter /Type of cover	New single dwelling construction	New multi dwelling (3 storeys or less) *	Alterations /Additions #	Swimming Pools	Renovations (including kitchens and bathrooms) ^	Other	Totals
Sep 09	4,965	852	4,114	1,321	3,707	238	15,197
Dec 09	4,028	969	3,782	1,156	2,899	149	12,983
Mar 10	3,828	787	4,317	823	2,487	87	12,329
Jun 10	4,209	904	3,903	830	2,652	111	12,609
Sep 10	4,450	1,250	4,247	1,150	4,208	44	15,349
Dec 10	3,983	719	3,353	1,021	4,144	18	13,238
Mar 11	4,143	942	3,954	1,068	4,209	12	14,328
Jun 11	4,314	1,040	3,932	991	4,822	12	15,111
Sep 11	4,274	1,140	4,383	1,176	4,301	22	15,296
Dec 11	3,610	992	3,483	1,041	3,839	14	12,979
Mar 12	3,633	922	3,077	710	2,743	8	11,093
Jun 12	4,260	1,044	3,129	743	2,138	11	11,325
Sep 12	4,210	1,170	3,597	930	2,621	15	12,543

* A project certificate is issued for each unit in a multi-unit development.

Alterations and additions - structural (i.e. the majority of the work is structural).

^ Renovations - non-structural (i.e. the majority of the contract is non-structural), including e.g. kitchen/bathroom renovations and trade work.

Half the project certificates issued during the quarter were for alterations (29%) and renovations (21%), 43% for new single and multi-unit dwellings and 7% for swimming pools /others.

The number of project certificates issued increased overall by 11% during the quarter, with the main increases coming from Alterations and Renovations, in contrast with a slight reduction of 1% in new single dwelling construction.

Over the 12 months to 30 September 2012, 47,940 certificates were issued, down 17% from the previous 12 months (57,973).

Figure C2.1 Total Number of project certificates issued during each quarter

Table C2. Value of project certificates issued by type of cover during each quarter – (\$'million)

Quarter /Type of cover	New single dwelling construction	New multi dwelling (3 storeys or less) *	Alterations /Additions #	Swimming Pools	Renovations (including kitchens and bathrooms) ^	Other	Totals (\$'million)	Average Value per Project Certificate (\$'000)

Sep 12	1,275	233	499	40	126	1	2,174	173

* A project certificate is issued for each unit in a multi-unit development.

Alterations and additions - structural (i.e. the majority of the work is structural)

^ Renovations - non-structural (i.e. the majority of the contract is non-structural), including e.g. kitchen/bathroom renovations and trade work.

C.3 Building approvals versus new project certificates issued – Builder and Owner-Builder

Table C3 and the figures following compare new project certificates issued with building approvals for new dwellings granted based on Australian Bureau of Statistics (ABS) data collected from NSW local government authorities. The ABS data does not distinguish between builders and owner-builders so we have combined them for this part of the analysis. We have endeavoured to exclude public sector work from the building approval data to enable like-for-like comparison.

Figures C3.1 and C3.2 show the detailed comparisons for numbers and values respectively of new dwellings and project certificates.

Table C3. Building approvals versus project certificates issued –
All new dwellings of three storeys or less

Quarter	Numbers			Value of (\$m)

D Premium Information - Builder

Insurers provide information to Fair Trading on the premium charged for project certificates issued to builders during the quarter. For the reports below, premium is shown on two bases: including charges and excluding charges. “Charges” refer to all commissions, government and other charges (i.e. GST, stamp duty, government levies and credit card surcharges) as reported by insurers to Fair Trading.

Premium excluding charges is the amount retained by the insurer to pay claims and the insurer’s expenses.

Premium including charges is intended to represent the amount paid by the builder including statutory charges such as GST. However, it excludes any fees charged by brokers or intermediaries in addition to the insurer’s premium. Any margin added by the builder in on-charging the premium to consumers also is not captured in the insurers’ data and is therefore not reported in the figures below.

D.1 Total premiums by project type - Builder

Table D1.1 Written premium for project certificates issued (including charges) - (\$'000)

Quarter /Type of cover	New single dwelling construction	New multi dwelling (3 storeys or less) *	Alterations /Additions#	Swimming Pools	Renovations (including kitchens and bathrooms) ^	Other	Totals (\$'000)
Sep 09	6,060	1,492	4,187	707	1,037	198	13,681
Dec 09	6,141	1,777	3,859	667	792	127	13,363
Mar 10	5,525	1,620	4,150	465	600	81	12,441
Jun 10	6,690	2,322	4,393	510	635	109	14,659
Sep 10	6,819	2,234	4,861	659	1,060	48	15,681
Dec 10	6,224	1,290	2,795	330	892	7	11,538
Mar 11	6,542	2,166	3,408	356	913	6	13,391
Jun 11	6,810	2,069	3,404	349	1,046	5	13,683
Sep 11	7,481	2,341	3,660	442	1,016	9	14,949
Dec 11	6,524	2,215	3,035	387	875	5	13,041
Mar 12	6,341	2,071	3,236	275	683	5	12,611
Jun 12	7,510	2,269	3,348	294	652	5	14,078
Sep 12	7,852	2,487	3,565	377	805	7	15,093

Total premiums (Tables D1.1) increased by 7% during the quarter. This reflects the net effects of a 11% rise in number of certificates issued (Table C1) offset by a 3% fall in average premium per certificate (Table D2.1). The latter, in turn reflects a 7% increase in average premium per \$1,000 value of Certificate (Table D2.2) offset by a 9% fall in average value per certificate (Table C2) issued (due to a change in the mix of types of cover with a higher proportion of Alterations and Renovations during the September quarter) compared to last quarter.

Table D1.2 Written premium for project certificates issued (excluding charges) - (\$'000)

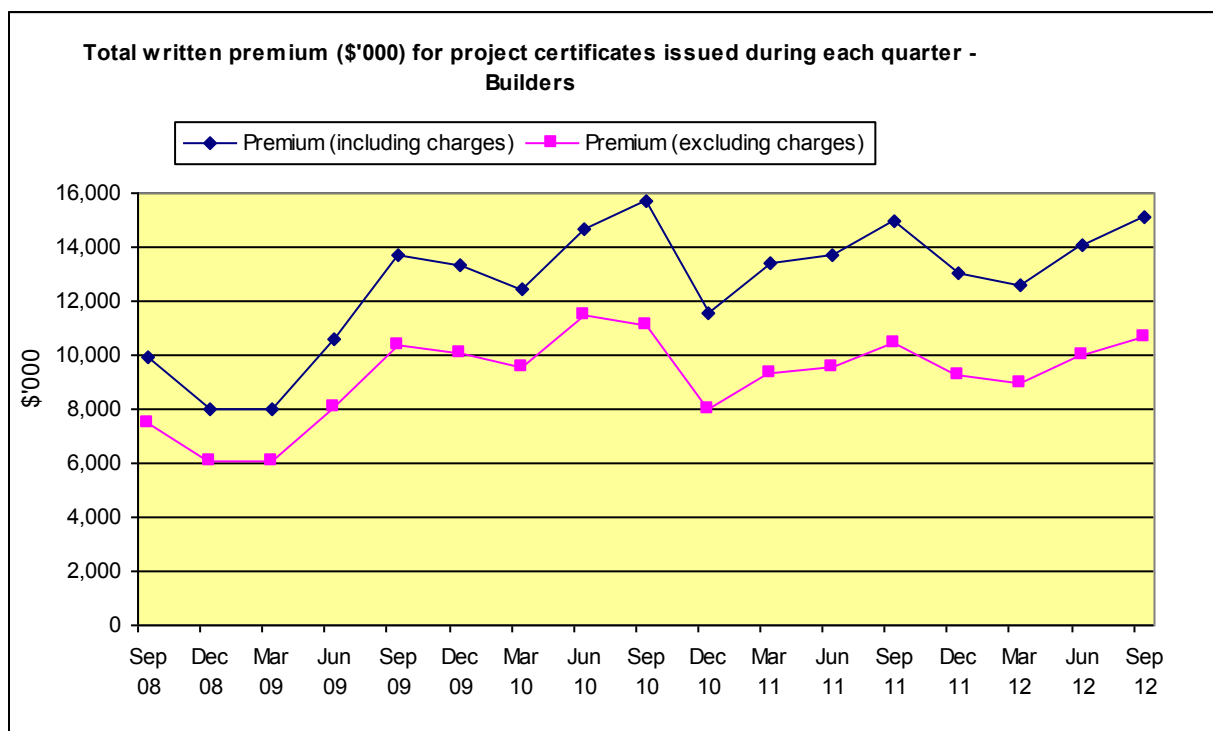

Quarter /Type of cover	New single dwelling construction	New multi dwelling (3 storeys or less) *	Alterations /Additions#	Swimming Pools	Renovations (including kitchens and bathrooms) ^	Other	Totals (\$'000)

* A project certificate is issued for each unit in a multi-unit development.

Alterations and additions - structural (i.e. the majority of the work is structural)

^ Renovations - non-structural (i.e. the majority of the contract is non-structural), including e.g. kitchen/bathroom renovations and trade work.

Average premiums per \$1,000 value of certificate issued fell fairly consistently from September 2006 to June 2008 by about 27%, but increased by 44% from June 2008 to June 2010. HWIF introduced new underwriting criteria and premium rates from 1 October 2010 with increased rates for new dwellings and reduced rates for other construction types in that quarter.

E Claims information - Builder

The handling and management of claims by insurers is subject to *Claims Handling Guidelines* that are available on the Fair Trading website. Fair Trading is provided with data at the end of each quarter of all claims received by insurers in respect of HWI business issued after 1 July 2002.

The information set out below provides only a partial picture of HWI Scheme activity. Therefore, care must be taken in basing conclusions on trends that have emerged to date. The data in this publication relates only to project certificates issued from 1 July 2002 and to claims that have been notified to date on those certificates. **It does NOT include claims that have not yet been reported to insurers on those certificates or any provisions made by insurers in their accounts for the cost of unreported claims or cost escalation on reported claims.** Also, it does not include any information on claims arising from project certificates issued prior to 1 July 2002, even though claims relating to prior years continue to be reported and settled in the post 1 July 2002 period.

E.1 Number of claims by liability assessment status - Builder

Table E1 Cumulative Number of Claims by Liability Status at each quarter end

Quarter	Notification only #	Liability being assessed	Liability fully, partially or deemed accepted	Liability fully denied	Liability in dispute	Total
Sep 09	1,110	228	1,642	393	34	3,407
Dec 09	1,133	204	1,784	489	35	3,645
Mar 10	1,234	196	1,911	530	38	3,909
Jun 10	1,332	155	2,065	563	52	4,167
Sep 10	1,406	149	2,188	616	44	4,403
Dec 10	1,488	156	2,307	647	45	4,643
Mar 11	1,645	185	2,403	712	36	4,981
Jun 11	1,799	193	2,565	749	33	5,339
Sep 11	1,977	227	2,693	807	29	5,733

Sep 12	2,343	285	3,671	983	37	7,319

If a 'Notification' has not become a claim after an extended period, its status is recorded as 'Finalised' within the 'Notification' category. As at 30 September 2012, there were 2,143 such 'Notifications' which have been recorded as 'Finalised' with nil payment to claimant.

As at 30 September 2012, around 14% of accepted liability claims under the scheme related to the Beechwood collapse in May 2008.

There were also 413 notifications or claims against the HWIF and former insurers arising from the December 2011 quarter insolvencies of Cosmopolitan Constructions and Westminster Homes. Insurers have accepted liability on 336 of these claims (9% of all accepted liability claims in the scheme); 23 are pending determination; 24 liability fully declined and 30 finalised with nil payment.

E.3 Claims experience - Builder

The remaining tables in this section show a further breakdown of the claims where liability has been accepted by the insurer in regards to builders (not owner-builders) as at **30 June 2012**. Information is shown separately between (a) claims that are finalised with all costs known and (b) those that are open, in which case at least part of the cost is an estimate of future payments.

Table E3. Claims Experience by Principal Cause (incl GST) – for Finalised Accepted Claims*

Principal Cause	No. of Claims	Sum Paid to Claimant	Sum Paid to Third Parties	Total Gross Paid \$	Average Claim Size \$
A01: Insolvency	2,541	131,797,994	9,797,815	141,595,809	55,724
A02: Death	36	2,194,869	74,274	2,269,143	63,032
A03: Disappearance	131	6,950,850	475,124	7,425,974	56,687
Total	2,708	140,943,713	10,347,213	151,290,926	55,868

*Accepted Claims are those in which liability is partially, fully or deemed accepted by the insurer.

“Paid to Claimant” includes all payments to the claimant or to suppliers involved in the rectification of the works. “Paid to Third Parties” includes payments to investigators, loss adjusters, legal expenses, etc. but not insurers’ claims handling expenses (overheads).

Table E4. Claims Experience by Principal Cause (incl GST) – for Open Accepted Claims*

Principal Cause	No. of Claims	Sum of Paid to Claimant	Sum of Paid to Third Parties	Net Outstanding Estimate \$	Estimated Total Claims Cost	Average Claim Size \$
A01: Insolvency	921	70,127,246	10,710,921	87,419,495	168,257,662	182,690
A02: Death	3	462,143	39,403	3,530	505,076	168,359
A03: Disappearance	38	2,211,502	265,935	1,582,434	4,059,871	106,839
A05: Lic suspended (non-compliance of CTTT money order)	1	18,498	3,071	1,210	22,779	22,779
Total	963	72,819,389	11,019,330	89,006,669	172,845,388	179,486

*Open claims are claims which are not finalised.

Table E5. Claims Experience by Claim Code (incl GST) - for Finalised Accepted Claims

Claim Code	No. of Claims	Sum Paid to Claimant	Sum Paid to Third Parties	Total Gross Paid \$	Average Claim Size \$
T01: Failure to commence	179	3,898,672	136,546	4,035,218	22,543
T02: Failure to complete	1,023	62,527,938	3,987,765	66,515,703	65,020
T03: Structural defect	1,139	58,201,450	4,737,083	62,938,533	55,258
T04: Other loss#	367	16,315,653	1,485,819	17,801,472	48,505
Total	2,708	140,943,713	10,347,213	151,290,926	55,868

Table E6. Claims Experience by Claim Code (incl GST) – for Open Accepted Claims

Claim Code	No. of Claims	Sum of Paid to Claimant	Sum of Paid to Third Parties	Net Outstanding Estimate \$	Estimated Total Claims Cost	Average Claim Size \$
T01: Failure to commence	15	272,335	30,321	47,106	349,762	23,317
T02: Failure to complete	247	22,813,236	2,743,304	6,345,065	31,901,605	129,156
T03: Structural defect	654	45,893,613	7,287,905	76,621,270	129,802,788	198,475
T04: Other loss#	47	3,840,205	957,800	5,993,228	10,791,233	229,601
Total	963	72,819,389	11,019,330	89,006,669	172,845,388	179,486

'Other loss' claims are generally for non-structural defects.

Table E7. Claims Experience by Type of Cover (incl GST) – for Finalised Accepted Claims

Type of Cover	No. of Claims	Sum of Paid to Claimant	Sum of Paid to Third Parties	Total Gross Paid \$	Average Claim Size \$

E.4 Claims experience by year certificate issued

Table E9. Scheme Claims Experience to date by year of issue of project certificates (incl GST) – for all Accepted liability (finalised and open) claims: **builders and owner-builders combined**

Certificate calendar year of issue	No. of Claims	Sum of Paid to Claimant	Sum of Paid to Third Parties	Net Outstanding Estimate \$	Estimated Total Claims Cost	Average Claim Size \$
2002 (from 1/7/2002)	131	15,526,733	2,015,078	7,545,490	25,087,301	191,506
2003	357	26,319,410	4,425,382	33,113,208	63,858,000	178,874
2004	532	32,296,379	3,880,977	12,546,799	48,724,155	91,587
2005	439	21,655,749	2,684,582	11,346,235	35,686,566	81,291
2006	499	27,139,909	2,450,090	6,949,518	36,539,517	73,225
2007	726	34,404,740	2,950,663	4,513,499	41,868,902	57,671
2008	424	22,521,121	1,543,720	2,444,439	26,509,280	62,522
2009	223	13,346,239	770,644	3,385,053	17,501,936	78,484
2010	220	14,349,173	656,910	4,930,928	19,937,011	90,623
2011	189	12,762,269	639,476	2,493,880	15,895,625	84,104
2012	11	228,918	12,861	29,254	271,033	24,639
Total	3,751	220,550,640	22,030,383	89,298,303	331,879,326	88,478

This table shows the claims experience to date split by the year the project certificate was issued. For reasons explained in Section 2, this data provides an incomplete view of the claims experience for each year. For all years of issue, even for the earliest under the current scheme with certificates issued in 2002 and 2003, the number of claims and amount paid on claims will continue to increase over the next few years because:

- there may be significant delay between the date a project certificate is issued and the commencement of the project;
- the duration of building projects may range from a few weeks to a few years;
- coverage remains in place for six years after project completion; and
- it may take some time for home owners to identify a loss, lodge a claim with an insurer and for the insurer to assess the claim and arrange rectification.

The impact of these factors is even greater for more recent years.

Insurers have also estimated additional costs of \$36 million in respect of claims in which liability have **not** been determined.

Insurers do manage to recover some claim payments, generally as creditors of insolvent builders. Since the scheme commenced, some \$7m has been recovered or about 2% of estimated total claims cost to date.

Overall for the Scheme, the number of **accepted liability** claims is up 209 or 6%, and the reported costs up \$28 million or 9%, since the last quarter.

Part II Owner-Builder Information

This section sets out data for owner-builders (OB) in a similar format to that shown earlier for builders. Not all tables in Part I have a corresponding table in this section as some data is not relevant or available in respect of owner-builder insurance.

* A project certificate is issued for each unit in a multi-unit development.

Alterations and additions - structural (i.e. the majority of the work is structural)

^ Renovations - non-structural (i.e. the majority of the contract is non-structural), including e.g. kitchen/bathroom renovations and trade work.

* A project certificate is issued for each unit in a multi-unit development.

Alterations and additions - structural (i.e. the majority of the work is structural)

^ Renovations - non-structural (i.e. the majority of the contract is non-structural), including e.g. kitchen/bathroom renovations and trade work.

Premium rates for owner-builders are generally higher than for corresponding work done by builders. This may reflect insurer expectations of higher costs of claims for structural and non-structural defects in respect of owner-builders compared to licensed builders.

OB.E Claims Information- Owner-Builder

OB.E1 Number of claims by liability assessment status – Owner-Builder

Table OB.E1 Number of Claims by Liability Status at each quarter end

OB.E3 Claims experience - Owner-Builder

The remaining tables in this section show a further breakdown of the claims as at 30 September 2012 where liability has been accepted as at that date. Both open and finalised claims are included in these tables.

Table OB.E3. Claims Experience by Principal Cause (incl GST) - Accepted* Claims

Principal Cause	No. of Claims Reported	No. of claims Open	Total amounts paid to date \$	Estimated Total Claims Cost \$	Average Claim Size \$
A01: Insolvency	26	9	2,484,037	2,759,105	106,119
A02: Death	5	0	171,939	171,939	34,388
A03: Disappearance	49	4	4,795,402	4,811,968	98,203
Total	80	13	7,451,378	7,743,012	96,788

*Accepted Claims are those in which liability is partially, fully or deemed accepted by the insurers.

“Total amounts paid to date” includes all payments to the claimant or to suppliers involved in the rectification of the works; payments to third parties such as investigators, loss adjusters, legal expenses, etc.). Insurers’ own claim handling expenses (overheads) are excluded.

Disappearance of builder is the dominant cause of claims with respect to owner-builders, in contrast to claims against builders which are predominantly in respect of builder insolvency.

Table OB.E4. Claims Experience by Claim Code (incl GST) – Accepted Claims

Claim Code	No. of Claims Reported	No. of claims Open	Total amounts paid to date \$	Estimated Total Claims Cost \$	Average Claim Size \$
T03: Structural defect	74	12	7,035,943	7,264,917	98,175
T04: Other loss*	6	1	415,435	478,095	79,682
Total	80	13	7,451,378	7,743,012	96,788

* ‘Other loss’ claims are generally for non-structural defects.

Non-commencement and non-completion are not applicable as to the circumstances giving rise to claims against owner-builders.

Table OB.E5. Claims Experience by Type of Cover (incl GST) – Accepted Claims

Type of Cover	No. of Claims Reported	No. of claims Open	Total amounts paid to date \$	Estimated Total Claims Cost \$	Average Claim Size \$
C01 : New single dwelling construction	61	10	5,662,641	5,912,914	96,933
C03 : New multi dwelling (3 storeys and less) *	2	1	238,867	249,186	124,593
C04 : Alterations/Additions	16	2	1,447,251	1,478,293	92,393
C05: Swimming Pools	0	0	0	0	0
C06 : Renovations (including kitchens and bathrooms)	0	0	0	0	0
C07: Other	1	0	102,619	102,619	102,619
Total	80	13	7,451,378	7,743,012	96,788

*Multi-unit claims for common areas are averaged over all units within a development
