**Information on the Scheme as at**

**30 September 2013**

27 February 2014

Home Warranty Insurance Scheme Board  
NSW Fair Trading  
Department of Finance and Services  
Level 11, 10-14 Smith Street  
Parramatta NSW 2150

Dear Members of the Board

### HWI Scheme Data as at 30 September 2013

Finity Consulting Pty Limited (Finity) was engaged by NSW Fair Trading to review the publication of data for the Home Warranty Insurance (HWI) Scheme.

Finity has reviewed the descriptions of the data and the presentation of tables and graphs to make sure the data is presented fairly and is not likely to be misinterpreted. Note that Finity has not reviewed the accuracy of the data provided by the insurers nor the accuracy of the summary tables prepared by Fair Trading, but, where possible, has considered them for reasonableness.

We particularly draw the attention of the reader to Section 2 of the publication – Caution in Interpreting the Information.

Yours sincerely

David Minty

Mark Hurst

# Home Warranty Insurance Scheme Information

## 1 PREAMBLE

The *Home Building Act 1989* establishes a home warranty insurance (HWI) scheme. The scheme provides protection for consumers where builders fail to complete residential building work or rectify defects.

In New South Wales, HWI may only be offered by licensed insurers approved by the Minister under the Act. The NSW Self Insurance Corporation, trading as the NSW Home Warranty Insurance Fund (HWIF), became the sole provider of home warranty insurance in NSW on 1 July 2010, replacing the former private insurers. The Corporation is a part of the Department of Finance and Services since 1 July 2013. The Scheme is underwritten and capitalised by the Government and funded by warranty insurance premiums.

The approved insurers from the private sector all ceased writing business on or before 30 June 2010. However, all approved insurers will continue to manage and settle claims on policies written up until that date.

QBE Insurance (Australia) Limited and Calliden Insurance Limited have been appointed as insurance agents of the NSW Self Insurance Corporation through contractual arrangements. Vero Insurance Limited was also an agent for the three months to 30 September 2010.

### HWI Scheme Data

NSW Fair Trading, within the Department of Finance and Services, has certain regulatory responsibilities in relation to home warranty insurance. One of the roles of Fair Trading is to collect data on claims and policies from insurers in order to be able to monitor the operation of the scheme.

Since September 2005 insurers in the HWI scheme have been providing data on a quarterly basis to Fair Trading. The following information on the operation of the scheme applies only to the version of the scheme in operation since 1 July 2002, in which the protection offered applies only in the event of the death, disappearance or insolvency of a builder. For policies issued from 19 May 2009, cover extends to situations where a builder's licence is suspended for a failure to comply with a mandatory monetary order of the Consumer, Trader and Tenancy Tribunal or a court in favour of the homeowner.

This publication summarises the data that has been provided since June 2006 for the insurance period 1 July 2002 to 30 September 2013. The information provided has been aggregated across insurers. Data provided by individual insurers is commercially confidential and has not been disclosed.

Further information on the operation of the scheme is available on the following websites:

**NSW Fair Trading:** [http://www.fairtrading.nsw.gov.au/Tradespeople/Home\\_warranty\\_insurance.html](http://www.fairtrading.nsw.gov.au/Tradespeople/Home_warranty_insurance.html)

**Home Warranty Insurance Fund:** <http://www.homewarranty.nsw.gov.au>

## 2 CAUTION IN INTERPRETING THE INFORMATION

HWI is a 'long tail' class of insurance business, which means:

- there may be significant delay between the date a project certificate is issued and the commencement of the project;
- the duration of building projects may range from a few weeks to several years;
- coverage remains in place for six years after project completion; and
- it may take some time for home owners to identify a loss, lodge a claim with an insurer and for the insurer to assess the claim and arrange rectification.

Claims experience of HWI can vary greatly from year to year depending on economic conditions in both the home building market and in the community generally. Since the adoption of the single insurer model from 1 July 2010, insurance market cycles are only likely to impact the scheme to the extent that the insurer seeks to obtain reinsurance cover from the commercial insurance market.

For the first few years after the current HWI scheme commenced in 2002, the NSW economy performed reasonably well, and conditions were generally favourable for home builders. As over 90% of home warranty claims arise from the insolvency of the builder, the downturn in the economy in 2008 drove a significant increase in claims on the scheme as even some larger builders have failed. Poor business decisions are also more likely to convert into business failure if additional financing is unexpectedly required or existing loans need to be renegotiated or rolled over when lending or investing conditions are tight. Any serious assessment of the scheme should place substantial weight not only on the long tail nature of the scheme, but also that different economic circumstances can yield significantly different claims results.

As the cover provided by HWI insurers extends over at least six years from completion of work, the downturn in the building industry since 2008 has given rise to claims because structural defects now emerging may involve builders that have become insolvent since then. As a consequence, the claim experience of even early underwriting years has continued to deteriorate. During the 12 months to September 2013, there has been a significant increase of \$84 million, or 23%, in the overall estimated net incurred claims cost reported by the scheme insurers. This illustrates the point made earlier that it takes many years for the ultimate experience of this class of business to emerge.

### 3 DATA

#### Part I Information Related only to Licensed Builders

##### A Eligibility Information

'Eligibility' is the term used to describe the entitlement that a builder has to apply for a Certificate of Insurance for home building projects, and the conditions under which the Certificate of Insurance may be granted. From 1 July 2010, eligibility application may be made via an insurance broker to one of HWIF's Insurance Agents.

##### A.1 Builder eligibilities

Table A1 shows the number of builder eligibilities at the end of each quarter by turnover band. It includes builders who may have had eligibility via more than one insurer /agent at the time of reporting. Turnover refers to the total annual turnover for which the builder has eligibility from the insurer at the end of the quarter for all types of cover.

Table A1 Number of builder eligibilities by turnover band

Turnover band (\$' m)	\$0 - <0.5m	\$0.5 - <1m	\$1 - <2m	\$2 - <3m	\$3 - <5m	\$5 - <20m	\$20+m	Totals
Sep 10	2,469	2,199	4,674	3,449	3,788	680	98	17,357
Dec 10	2,358	2,230	4,363	3,184	3,102	640	91	(#1) 15,968

Jun 11	3,168	2,617	4,614	2,895	3,054	692	82	17,122
Sep 11	2,947	2,486	4,352	2,392	2,673	661	78	(#2) 15,589
Dec 11	3,071	2,601	4,495	2,419	2,573	662	71	15,892
Mar 12	3,069	2,601	4,499	2,361	2,424	629	68	15,651
Jun 12	3,142	2,668	4,567	2,340	2,328	614	70	15,729
Sep 12	3,157	2,729	4,618	2,241	2,121	621	74	15,561
Dec 12	3,145	2,710	4,615	2,167	1,974	556	65	15,232
Mar 13	2,979	2,726	4,728	2,135	1,883	557	71	15,079
Jun 13	3,071	2,811	4,857	2,173	1,802	580	76	15,370
Sep 13	3,193	2,934	4,932	2,177	1,700	586	76	15,598

Notes:

#1. Prior to 1 October 2010, a builder may have held eligibility through more than one insurance agent. The multiple eligibility cleansing process implemented by HWIF in late 2010 resulted in each builder having only one active eligibility at any time through either one of the agents QBE or Calliden. Furthermore, Vero ceased as an insurance agent for the HWIF as at 1 October 2010. Consequently, the number of builder eligibilities fell by 8% between September and December 2010.

#2 The drop in the number of current builder eligibilities as at 30 September 2011 was mainly due to the removal of around 1,400 non-current (expired, cancelled or surrendered) licences included in prior quarters.

As at 30 September 2013, the proportion of builders with eligibility for annual turnover are: less than \$1 million: 39%, \$1m to less than \$5m: 57%, and \$5m and over: 4%, largely unchanged from last quarter.

Figure A1 - Trend in: a) number of current eligibilities held by builders, and b) number of builders with eligibility, as at end of each quarter.

**B Securities and Indemnities Information**

For a small proportion of builders, the HWIF may require security as a condition of approving eligibility or providing home warranty cover for a specific project. This will generally be provided in the form of a Deed of Indemnity.

Bank guarantees are not sought by the HWIF for security purpose although a builder can provide a bank guarantee if the builder chooses to do so. To-date, the HWIF has received only one bank guarantee as a security from a builder as the preferred option of that builder in order to satisfy the HWIF’s eligibility underwriting criteria.

The HWIF reports to Fair Trading each quarter regarding the security held for builders with current eligibility as at the end of the quarter. Securities provided prior to 1 July 2010 by builders to former insurers are unable to be transferred to the HWIF, and will remain in place until they are released by the insurers. Such securities held by former insurers are not included in the HWIF report for post 30 June 2010 data, but may be included in the pre-1 July 2010 data if the builder had eligibility at that time.

## B.1 Securities held by insurers for builders with current eligibility

Table B1 Number of Securities held by insurers for builders with current eligibility as at end of each quarter

Quarter	Bank Guarantee	Indemnity	Totals	% of Total Builder Eligibility
Sep 10	0	0	0	0%
Dec 10	0	0	0	0%
Mar 11	0	255	255	1.6%

Sep 11	0	696	696	4.5%
Dec 11	0	719	719	4.5%
Mar 12	0	797	797	5.1%
Jun 12	0	871	871	5.5%
Sep 12	1	993	994	6.4%
Dec 12	1	1,101	1,102	7.2%
Mar 13	1	1,193	1,194	7.9%
Jun 13	1	1,332	1,333	8.7%
Sep 13	1	1,438	1,439	9.2%

## C Project Certificate Information – Builder

Generally a project certificate is issued in relation to a project prior to building commencement. The project certificate is evidence of the HWI contract. Insurers report to Fair Trading the number of project certificates issued during the quarter, and the number of project certificates for projects still in progress (current) at the end of the quarter. For the purpose of this report, building works are deemed completed 12 months after certificate issue date.

### C.1 Current project certificates - Builder

Figure C1 shows the trend in the total number of current project certificates for “work in progress” as at the end of each quarter. These figures do not include owner builder projects.

Figure C1 Trend in total number of current project certificates - as at the end of each quarter

## C.2 New project certificates issued - Builder

Tables C1, C2 and figure C2.1 show the number and value of new project certificates issued during the quarter, reduced by the number (or value) of project certificates cancelled in the quarter. A cancellation occurs when a project certificate is terminated because the project did not commence. If a project certificate applies to more than one type of cover, then it is classified under the type of cover that represents the greatest value under the contract.

Table C1. Number of project certificates issued by type of cover

Quarter /Type of cover	New single dwelling construction	New multi dwelling (3 storeys or less) *	Alterations /Additions #	Swimming Pools	Renovations (including kitchens and bathrooms) ^	Other	Totals
Sep 10	4,450	1,250	4,247	1,150	4,208	44	15,349
Dec 10	3,983	719	3,353	1,021	4,144	18	13,238
Mar 11	4,143	942	3,954	1,068	4,209	12	14,328
Jun 11	4,314	1,040	3,932	991	4,822	12	15,111
Sep 11	4,274	1,140	4,383	1,176	4,301	22	15,296
Dec 11	3,610	992	3,483	1,041	3,839	14	12,979
Mar 12	3,633	922	3,077	710	2,743	8	11,093
Jun 12	4,260	1,044	3,129	743	2,138	11	11,325
Sep 12	4,210	1,170	3,597	930	2,621	15	12,543
Dec 12	3,942	1,225	2,872	858	2,158	8	11,063
Mar 13	4,228	1,349	3,014	764	2,253	10	11,618
Jun 13	4,790	1,482	3,446	754	2,497	15	12,984
Sep 13	5,040	1,845	3,747	984	2,674	14	14,304

\* A project certificate is issued for each unit in a multi-unit development.

# Alterations and additions - structural (i.e. the majority of the work is structural).

^ Renovations - non-structural (i.e. the majority of the contract is non-structural), including e.g. kitchen/bathroom renovations and trade work.

The proportion of project certificates issued during the quarter were: new single and multi-unit dwellings (48%), alterations (26%), renovations (19%) and 7% for swimming pools /others.

The number of project certificates issued has increased for the third consecutive quarters, rising by 10% during the quarter and 14% higher than 12 months ago.

Figure C2.1 Total Number of project certificates issued during each quarter

Table C2. Value of project certificates issued by type of cover during each quarter – (\$'million)

Quarter /Type of cover	New single dwelling construction	New multi dwelling (3 storeys or less) *	Alterations /Additions #	Swimming Pools	Renovations (including kitchens and bathrooms) ^	Other	Totals (\$'million)	Average Value per Project Certificate (\$'000)
Sep 10	1,354	265	537	47	135	6	<b>2,344</b>	153
Dec 10	1,177	139	413	38	120	1	<b>1,888</b>	143
Mar 11	1,265	214	499	41	125	1	<b>2,145</b>	150

Jun 12	1,330	219	474	32	106	1	<b>2,162</b>	191
Sep 12	1,275	233	499	40	126	1	<b>2,174</b>	173
Dec 12	1,178	253	432	35	93	0	<b>1,991</b>	180
Mar 13	1,296	263	451	32	98	1	<b>2,141</b>	184
Jun 13	1,494	308	538	34	119	2	<b>2,495</b>	192
Sep 13	1,521	401	537	42	131	1	<b>2,633</b>	184

\* A project certificate is issued for each unit in a multi-unit development.

# Alterations and additions - structural (i.e. the majority of the work is structural)

^ Renovations - non-structural (i.e. the majority of the contract is non-structural), including e.g. kitchen/bathroom renovations and trade work.

The value of project certificates issued has increased for the third consecutive quarters, rising by 6% during the quarter and 21% higher than 12 months ago.

### C.3 Building approvals versus new project certificates issued – Builder and Owner-Builder

Table C3 and the figures following compare new project certificates issued with building approvals for new dwellings granted based on Australian Bureau of Statistics (ABS) data collected from NSW local government authorities. We have combined the HWI builders and owner-builders data in this part of the analysis to be consistent with ABS data (which does not distinguish between builders and owner-builders data). We have endeavoured to exclude public sector work where possible from the building approval data to enable like-for-like comparison.

*Table C3. Building approvals versus project certificates issued – All new dwellings of three storeys or less*

Quarter	Numbers			Value of (\$m)		
	Certificates issued	Building Approvals	Ratio	Certificates issued	Building Approvals	Ratio
	(1)	(2)	(3)	(4)	(5)	(6)
<b>Sep 10</b>	5,900	5,510	107%	1,680	1,459	115%

<b>Sep 13</b>	7,099	6,876	103%	1,984	1,849	107%
<b>Average</b>	5,557	5,934	94%	1,580	1,602	99%

Notes: ABS8731.0 Building Approvals, Australia; Tables 12, 22 and 43 "Dwelling units approved in new residential buildings - New South Wales"

Figures for more recent quarters may change where the ABS revises its estimates, and there will continue to be differences between the series from both timing of reporting and the unavoidable inclusion of some public sector building work in the approvals data.

Figures C3.1 and C3.2 show the detailed comparisons for numbers and values respectively between new dwellings project certificates issued and building approvals. They show the number and value of project certificates issued move broadly in line, as expected, with the building approvals data.

Figure C3.1 Numbers of building approvals versus certificates issued - Trend

Figure C3.2 Value of building approvals versus certificates issued - Trend

#### D Premium Information - Builder

Insurers provide information to Fair Trading on the premium charged for project certificates issued to builders during the quarter. For the reports below, premium is shown on two bases: including charges and excluding charges. “Charges” refer to all commissions, government and other charges (i.e. GST, stamp duty, government levies and credit card surcharges) as reported by insurers to Fair Trading.

Premium excluding charges is the amount retained by the insurer to pay claims and the insurer’s expenses.

Premium including charges is intended to represent the amount paid by the builder including statutory charges such as GST. However, it excludes any fees charged by brokers or intermediaries in addition to the insurer's premium. Any margin added by the builder in on-charging the premium to consumers is also not captured in the insurers' data and is therefore not reported in the figures below.

## D.1 Total premiums by project type - Builder

Table D1.1 Written premium for project certificates issued (including charges) - (\$'000)

\* A project certificate is issued for each unit in a multi-unit development.

# Alterations and additions - structural (i.e. the majority of the work is structural)

^ Renovations - non-structural (i.e. the majority of the contract is non-structural), including e.g. kitchen/bathroom renovations and trade work.

Overall average premiums per \$1,000 value of certificate issued fell fairly consistently from September 2006 to June 2008 by about 27%, but increased by 44% from June 2008 to June 2010. HWIF introduced new underwriting criteria and premium rates from 1 October 2010 with increased rates for new dwellings being offset by reduced rates for most other construction types. Since then, the overall average premium rate has risen by an average 3% per annum. Rates for new construction are up by an average 8% per annum, offset by rates for alterations and renovations which are down an average 7% per annum.

## E Claims information - Builder

The handling and management of claims by insurers is subject to *Claims Handling Guidelines* that are available on the Fair Trading website. Fair Trading is provided with data at the end of each quarter of all claims received by insurers in respect of HWI business issued after 1 July 2002.

The information set out below provides only a partial picture of HWI Scheme activity. Therefore, care must be taken in basing conclusions on trends that have emerged to date. The data in this publication relates only to project certificates issued from 1 July 2002 and to claims that have been notified to date on those certificates. **It does NOT include claims that have not yet been reported to insurers on those certificates or any provisions made by insurers in their accounts for the cost of unreported claims or cost escalation on reported claims.** Also, it does not include any information on claims arising from project certificates issued prior to 1 July 2002, even though claims relating to prior years continue to be reported and settled in the post 1 July 2002 period.

## E.1 Number of claims by liability assessment status - Builder

Table E1 Cumulative Number of Claims by Liability Status at each quarter end

Quarter	Notification only #	Liability being assessed	Liability fully, partially or deemed accepted	Liability fully denied	Liability in dispute	Total
Sep 10	1,406	149	2,188	616	44	4,403

Sep 13	7	103	90	3	274	610	1,087

<sup>^</sup> Decrease due to reclassification to another category for the claims concerned.

### E.3 Claims experience - Builder

The remaining tables in this section show a further breakdown of the claims where liability has been accepted by the insurer in regards to builders (not owner-builders) as at **30 September 2013**. Information is shown separately between (a) claims that are finalised with all costs known and (b) those that are open, in which case at least part of the cost is an estimate of future payments.

*Table E3. Claims Experience by Principal Cause (incl GST) – for Finalised Accepted\* Claims*

Principal Cause	No. of Claims	Sum Paid to Claimant	Sum Paid to Third Parties	Total Gross Paid \$	Average Claim Size \$
<b>A01: Insolvency</b>	3,248	196,291,803	14,460,642	<b>210,752,445</b>	<b>64,887</b>
<b>A02: Death</b>	40	2,606,981	99,178	<b>2,706,159</b>	<b>67,654</b>
<b>A03: Disappearance</b>	166	9,132,637	671,492	<b>9,804,129</b>	<b>59,061</b>
<b>Total</b>	<b>3,454</b>	<b>208,031,421</b>	<b>15,231,312</b>	<b>223,262,733</b>	<b>64,639</b>

\*Accepted Claims are those in which liability is partially, fully or deemed accepted by the insurer.

"Paid to Claimant" includes all payments to the claimant or to suppliers involved in the rectification of the works.

"Paid to Third Parties" includes payments to investigators, loss adjusters, legal expenses, etc. but not insurers' claims handling expenses (overheads).

*Table E4. Claims Experience by Principal Cause (incl GST) – for Open\* Accepted Claims*

Principal Cause	No. of Claims	Sum of Paid to Claimant	Sum of Paid to Third Parties	Net Outstanding Estimate \$	Estimated Total Claims Cost	Average Claim Size \$
<b>A01: Insolvency</b>	982	89,887,256	13,927,108	86,706,686	<b>190,521,050</b>	<b>194,013</b>
<b>A02: Death</b>	7	290,251	73,211	518,255	<b>881,717</b>	<b>125,960</b>
<b>A03: Disappearance</b>	46	2,632,511	329,492	2,791,458	<b>5,753,461</b>	<b>125,075</b>

#### E.4 Claims experience by year certificate issued

Table E9. Scheme Claims Experience to date by year of issue of project certificates (incl GST) – for all Accepted liability (finalised and open) claims: builders and owner-builders combined

Certificate calendar year of issue	No. of Claims	Sum of Paid to Claimant	Sum of Paid to Third Parties	Net Outstanding Estimate \$	Estimated Total Claims Cost	Average Claim Size \$
2002 (from 1/7/2002)	133	22,485,761	2,546,177	5,066,175	30,098,113	226,302
2003	363	40,878,892	5,820,134	28,812,449	75,511,475	208,021
2004	550	38,415,249	4,850,757	14,173,412	57,439,418	104,435
2005	487	29,431,420	3,701,928	6,598,921	39,732,269	81,586
2006	599	37,897,111	3,473,759	6,846,505	48,217,375	80,496
2007	798	38,942,063	3,526,480	4,671,590	47,140,133	59,073
2008	489	27,988,445	2,258,376	3,083,525	33,330,346	68,160
2009	279	17,741,654	1,275,428	5,118,583	24,135,665	86,508
2010	311	22,898,475	1,140,767	3,953,588	27,992,830	90,009
2011	382	25,060,044	1,430,218	5,915,263	32,405,525	84,831
2012	178	6,686,040	399,043	6,602,426	13,687,509	76,896
2013	11	130,365	7,116	81,002	218,483	19,862
<b>Total</b>	<b>4,580</b>	<b>308,555,519</b>	<b>30,430,183</b>	<b>90,923,439</b>	<b>429,909,141</b>	<b>93,867</b>

Table E9 shows the claims experience to date split by the year the project certificate was issued. For reasons explained in Section 2, this data provides an incomplete view of the claims experience for each year. For all years of issue, even for the earliest under the current scheme with certificates issued in 2002 and 2003, the number of claims and amount paid on claims will continue to increase over the next few years because:

- there may be significant delay between the date a project certificate is issued and the commencement of the project;
- the duration of building projects may range from a few weeks to a few years;
- coverage remains in place for six years after project completion; and
- it may take some time for home owners to identify a loss, lodge a claim with an insurer and for the insurer to assess the claim and arrange rectification.

The impact of these factors is even greater for more recent years and for multi-storey dwellings.

Insurers have also estimated additional costs of \$26 million in respect of claims in which liability has **not** yet been determined.

Insurers do manage to recover some claim payments, generally as creditors of insolvent builders. Since the scheme commenced, some \$10 million has been recovered or about 2% of estimated total claims cost to date.

Overall for the Scheme, the number of accepted liability claims is up 225 or 5%, and the reported costs up \$25 million or 6%, since the last quarter.

## Part II Owner-Builder Information

This section sets out data for owner-builders (OB) in a similar format to that shown earlier for builders. Not all tables in Part I have a corresponding table in this section as some data is not relevant or available in respect of owner-builder insurance.

### OB.C Project Certificate information – Owner-Builder

Sep 11	8.84	15.11	9.39	13.08	7.05	7.72	9.05
Dec 11	8.87	12.96	9.34	13.86	6.44	8.10	9.12
Mar 12	7.93	14.49	9.25	12.66	0	6.46	8.57
Jun 12	8.61	9.87	8.83	13.24	0	6.97	8.71
Sep 12	8.59	14.36	8.92	11.33	0	0	8.83
Dec 12	8.61	15.11	9.04	13.51	0	8.06	8.90
Mar 13	9.15	15.11	8.83	13.60	0	0	9.22
Jun 13	8.98	8.28	8.49	14.63	0	6.91	8.84
Sep 13	8.58	9.61	8.61	11.30	0	8.06	8.62

\* A project certificate is issued for each unit in a multi-unit development.

# Alterations and additions - structural (i.e. the majority of the work is structural)

^ Renovations - non-structural (i.e. the majority of the contract is non-structural), including e.g. kitchen/bathroom renovations and trade work.

Premium rates for owner-builders are generally higher than for corresponding work done by builders. This may reflect insurer expectations of higher costs of claims for structural and non-structural defects in respect of owner-builders compared to licensed builders.

## OB.E Claims Information- Owner-Builder

### OB.E1 Number of claims by liability assessment status – Owner-Builder

Table OB.E1 Number of Claims by Liability Status at each quarter end

Quarter	Notification only	Liability being assessed	Liability fully, partially or deemed accepted	Liability fully denied	Liability in dispute	Total
Sep 10	12	6	60	96	4	178
Dec 10	20	10	67	94	4	195

Sep 13	9 <sup>^</sup>	109	1	39	11	169

<sup>^</sup> Decrease due to a reclassification to another category for the claim concerned.

### OB.E3 Claims experience - Owner-Builder

The remaining tables in this section show a further breakdown of the claims as at 30 September 2013 where liability has been accepted as at that date. Both open and finalised claims are included in these tables.

Table **OB.E3**. Claims Experience by Principal Cause (incl GST) - Accepted\* Claims

Principal Cause	No. of Claims Reported	No. of claims Open	Total amounts paid to date \$	Estimated Total Claims Cost \$	Average Claim Size \$
A01: Insolvency	32	11	3,129,569	3,562,478	111,327
A02: Death	5	0	171,939	171,939	34,388
A03: Disappearance	54	7	5,281,632	5,755,763	106,588
<b>Total</b>	<b>91</b>	<b>18</b>	<b>8,583,140</b>	<b>9,490,180</b>	<b>104,288</b>

\*Accepted Claims are those in which liability is partially, fully or deemed accepted by the insurer.

"Total amounts paid to date" includes all payments to the claimant or to suppliers involved in the rectification of the works. It also include payments to third parties such as investigators, loss adjusters, legal expenses, etc. Insurers' own claim handling expenses (overheads) are excluded.

Disappearance of builder is the dominant cause of claims with respect to owner-builders, in contrast to claims against builders which are predominantly in respect of builder insolvency.

Table **OB.E4**. Claims Experience by Claim Code (incl GST) – Accepted Claims

Claim Code	No. of Claims Reported	No. of claims Open	Total amounts paid to date \$	Estimated Total Claims Cost \$	Average Claim Size \$
T03: Structural defect	85	18	8,095,695	9,002,735	105,915
T04: Other loss*	6	0	487,445	487,445	81,241
<b>Total</b>	<b>91</b>	<b>18</b>	<b>8,583,140</b>	<b>9,490,180</b>	<b>104,288</b>

\* 'Other loss' claims are generally for non-structural defects.

Non-commencement and non-completion are not applicable as to the circumstances giving rise to claims against owner-builders.

Table **OB.E5**. Claims Experience by Type of Cover (incl GST) – Accepted Claims

Type of Cover	No. of Claims Reported	No. of claims Open	Total amounts paid to date \$	Estimated Total Claims Cost \$	Average Claim Size \$
C01 : New single dwelling construction	72	16	6,744,662	7,584,172	105,336
C03 : New multi dwelling (3 storeys or less) *	2	0	238,867	238,867	119,434
C04 : Alterations/Additions	16	2	1,496,992	1,564,522	97,783
C05: Swimming Pools	0	0	0	0	0
C06 : Renovations (including kitchens and bathrooms)	0	0	0	0	0
C07: Other	1	0	102,619	102,619	102,619
<b>Total</b>	<b>91</b>	<b>18</b>	<b>8,583,140</b>	<b>9,490,180</b>	<b>104,288</b>

\*Multi-unit claims for common areas are averaged over all units within a development
