

**WORKERS COMPENSATION
(ORTHOPAEDIC SURGEON FEES) ORDER 2017**

under the

Workers Compensation Act 1987

I, Anthony Lean, Chief Executive, State Insurance Regulatory Authority, authorised delegate, make the following Order pursuant to section 61(2) of the *Workers Compensation Act 1987*.

Dated this 2nd day of December 2016

ANTHONY LEAN
Chief Executive
State Insurance Regulatory Authority

Explanatory Note

Treatment by a Medical Practitioner who is an Orthopaedic Surgeon is medical or related treatment covered under the *Workers Compensation Act 1987*.

Workers are not liable for the cost of any medical or related treatment. Employers are liable for the cost of treatment. This Order sets the maximum fees for which an employer is liable under the Act for treatment by an Orthopaedic Surgeon of a worker's work-related injury. The effect of this Order is to prevent a Surgeon from recovering from the injured worker or employer any extra charge for treatments covered by the Order.

Treatment by a Surgeon other than an Orthopaedic Surgeon is covered by the *Workers Compensation (Surgeon Fees) Order 2017*. However, maximum fees under this Order may apply to procedures carried out by a Surgeon which are covered by the *Workers Compensation (Surgeon Fees) Order 2017*.

This Order adopts the items listed as Orthopaedic Procedures in the *List of Medical Services and Fees* published by the Australian Medical Association (AMA).

To bill an AMA item number an Orthopaedic Surgeon must be confident they have fulfilled the service requirements as specified in the item descriptor.

Where only one service is rendered, only one item should be billed. Where more than one service is rendered on one occasion of service, the appropriate item for each discrete service may be billed, provided that each item fully meets the item descriptor. Where an operation comprises a combination of procedures which are commonly performed together and for which there is an AMA item that specifically describes the combination of procedures then only that item should be billed. Where a comprehensive item number is used, separate items should not be claimed for any of the individual items included in the comprehensive service. The invoice should cover the total episode of treatment.

The incorrect use of any items referred to in this Order can result in penalties, including the Medical Practitioner being required to repay monies to the State Insurance Regulatory Authority (the Authority) that the Medical Practitioner has incorrectly received.

Workers Compensation (Orthopaedic Surgeon Fees) Order 2017

1. Name of Order

This Order is the *Workers Compensation (Orthopaedic Surgeon Fees) Order 2017*.

2. Commencement

This Order commences on 1 January 2017.

3. Definitions

In this Order (including Schedules A, B and C):

the Act means the *Workers Compensation Act 1987*.

the Authority means the State Insurance Regulatory Authority as constituted under section 17 of the *State Insurance and Care Governance Act 2015*.

Aftercare visits has the same meaning as in the AMA List and is covered by the surgical procedure fee during the first six weeks following the date of surgery or until wound healing has occurred. Unrelated visits or incidental reasons for visits that are not regarded as routine aftercare must be explained with accounts rendered.

Assistant at operation means a Medical Practitioner, but only where an assistant's fee is allowed for in the Commonwealth Medicare Benefits Schedule, or where indicated in the Authority's schedule. An assistant fee may only be applicable for surgical procedures EA010 to MY115.

In accordance with NSW Health policy (**Doc No:** PD2015_034), assistant fees cannot be charged for the Authority's workers compensation cases performed in a public hospital when the assistant is a registrar. If the registrar is on rotation to an approved private hospital training rotation, the relevant assistant fee may be charged. Payment of these fees is to be directed into a hospital or departmental trust fund account and the invoice should include details of this account. The Authority reserves the right to conduct an audit of assistant fee payments to ensure their proper distribution into the named trust fund.

AMA List means the document entitled List of Medical Services and Fees published by the Australian Medical Association and dated 1 November 2016 and any subsequent amendments to this List published by the AMA in the period 1 November 2016 – 31 October 2017.

Compound (open) wound refers to a situation where an Orthopaedic Surgeon is treating a fracture and the injury is associated with a compound (open) wound. In an open fracture wound that requires debridement, a 50% loading for open fracture fixation can be applied. Debridement item 30023/EA075 is not to be used when applying this loading.

Extended initial consultation means a consultation involving significant multiple trauma or complex "red flag" spinal conditions (systemic pathology, carcinoma, infection, fracture or nerve impingement) involving a lengthy consultation and extensive physical examination.

GST means the Goods and Services Tax payable under the GST Law;

GST Law has the same meaning as in the *A New Tax System (Goods and Services Tax) Act 1999* of the Commonwealth.

Initial consultation and report covers the first consultation, the report to the referring General Practitioner and the copy of the report to the insurer.

The report will contain:

- the worker's diagnosis and present condition;
- an outline of the mechanism of injury
- the worker's capacity for work or for suitable employment;
- the need for treatment or additional rehabilitation; and
- medical co-morbidities that are likely to impact on the management of the worker's condition (in accordance with privacy considerations).

The receipt of this report and any certificates of capacity under section 44B of the Act post-treatment will provide sufficient information for insurers, employers and workplace rehabilitation providers to develop management plans.

Instrument fee covers procedures where the Orthopaedic Surgeon supplies all the equipment or a substantial number of specialised instruments in exceptional circumstances and must be justified. This fee does not apply for all operations or if only incidental instruments (non-critical) are supplied by the Orthopaedic Surgeon. Routine items such as loupes are not included.

Medical Practitioner means a person registered in the medical profession under the *Health Practitioner Regulation National Law (NSW) No 86a*, or equivalent Health Practitioner National Law in their jurisdiction with the Australian Health Practitioner Regulation Agency. The medical practitioner must not be suspended or disqualified from practice under any relevant law and his or her practitioner's registration must not be limited or subject to any condition imposed as a result of a disciplinary process.

Multiple operations or injuries refer to situations that require two or more operations or for the treatment of two or more injuries carried out at the same time. It applies to the AMA items listed in Schedule A, Item 5, "Orthopaedic procedures", with the exception of items specifically listed as a multiple procedure item in the AMA List or where Schedules in this Order prevent combining of items. The fee for the main procedure or injury is to be paid in full as per Schedule A (150% of AMA List fee), and for each additional item or injury at 75% of the charge specified in Schedule A (i.e. 75% x 150% of AMA List fee).

Opinion on file request includes retrieval of a file from whatever source, reading time, and reporting where a request for such an opinion has been made in writing to the Orthopaedic Surgeon and in accordance with privacy principles.

Orthopaedic procedures are those listed in the AMA List but do not include the cost of bandages, dressings, plaster of Paris bandages, splints, metallic fixation agents, and prosthetic implants which may be charged in addition to the fee set out in Schedules in this Order, if purchased by the Orthopaedic Surgeon. The fee for orthopaedic procedures includes pre-surgery consultations conducted on the same day of surgery and aftercare visits.

Orthopaedic Surgeon means a Medical Practitioner who is recognised by the Medical Board of Australia or by Medicare Australia as a Specialist in orthopaedic surgery and who is registered with the Australian Health Practitioner Regulation Agency as a Specialist in surgery, in the field of orthopaedic surgery. It includes an Orthopaedic Surgeon who is a staff member at a public hospital providing services at the hospital.

Out-of-hours consultation means a call-out to a public or private hospital or a private home for an urgent case before 8.00am or after 6:00pm Monday to Friday, or anytime on the weekend and public holidays. This fee is not to be utilised where a consultation is conducted for non-urgent cases.

Out-of-hours loading only applies when an Orthopaedic Surgeon is called back to perform a procedure(s) in isolation rather than for cases scheduled before 8.00am or after 6.00pm on a weekday or a routine weekend operating list. Loading to be calculated at 20% of the total procedure fee. Item must be reflected in the invoice as a separate entry against code WCO008.

Revision surgery refers to a procedure carried out to correct earlier surgery. Only where the revision surgery is performed by an Orthopaedic Surgeon other than the original Orthopaedic Surgeon, shall it attract a fee of 50% of the amount for the principal procedure in the initial surgery, in addition to the fee payable for the new procedure. Where the new procedure is specified as a revision procedure in the AMA List, the 50% loading does not apply.

Subsequent consultation is each attendance subsequent to the first in a single course of treatment. A subsequent consultation fee is not to be billed if conducted on the same day as

surgery or in the normal aftercare that applies following surgery. The cost of these consultations is included in the fee for the orthopaedic procedure.

4. Application of Order

This Order applies to treatment provided on or after the commencement date of this Order, whether it relates to an injury received before, on or after that date.

5. Maximum fees for treatment by Orthopaedic Surgeon

The maximum fee amount for which an employer is liable under the Act for treatment of an injured worker by an Orthopaedic Surgeon, being treatment of a type specified in Column 1 of Schedule A to this Order, is the corresponding amount specified in Column 3 of that Schedule.

A fee charged by an Orthopaedic Surgeon for a patient's treatment (including the management of fractures and other conditions) will be in addition to the fee in Schedule A for the original examination and report.

6. Billing items for hand surgery (Schedule B)

Schedule B provides mandatory guidelines for billing items used in hand and wrist surgery only.

Table 1 details items that are not applicable to hand surgery procedures.

Table 2 details items with restricted application for hand surgery and where clinical justification is required that they are reasonably necessary given the circumstances of the case.

7. Billing items for shoulder and elbow surgery (Schedule C)

Schedule C provides mandatory guidelines for billing items used in shoulder and elbow surgery only.

Any item number where the term "flag" is used in the Clinical Indication column highlights a potential exception that will require further justification. Should an Orthopaedic Surgeon seek an exception to the guidelines, the Orthopaedic Surgeon must provide a written explanation to support the request.

8. GST

An amount fixed by this Order is exclusive of GST. An amount fixed by this Order may be increased by the amount of any GST payable in respect of the service to which the cost relates, and the cost so increased is taken to be the amount fixed by this Order. This clause does not permit a Medical Practitioner or an Orthopaedic Surgeon to charge or recover more than the amount of GST payable in respect of the service to which the cost relates.

9. Requirements for invoices

All invoices must be submitted within 30 calendar days of the service provided and must comply with the Authority's itemised invoicing requirements (see <http://www.sira.nsw.gov.au/workers-compensation/health-practitioners-workers-compensation/invoicing>) for the invoice to be processed.

All invoices with surgical items must also be accompanied by the following:

- (1) Detailed operation report including a description of the initial injury and an outline of the mechanism of injury, intra-operative findings and the procedures performed, including structures that were repaired (stating the anatomic location) and technique of repair.
- (2) Usage of any of the restricted item numbers (Schedule B, Table 2 and Schedule C) must be accompanied by clinical justification in order to process the claim.

10. Surgery requests

For any proposed surgery – a list of proposed applicable AMA item numbers will need to be provided prior to approval being given.

Where questions arise in individual clinical situations, supply of additional information may be required to assist in determinations.

11. No pre-payment of fees

Pre-payment of fees for reports and services is not permitted.

12. Nil payment for cancellation or non-attendance

No fee is payable for cancellation or non-attendance by a worker for treatment services with an Orthopaedic Surgeon.

**SCHEDULE A
MAXIMUM FEES FOR ORTHOPAEDIC SURGEONS**

Item	Column 1 Type of service	Column 2 AMA Item(s)	Column 3 Maximum amount
<u>Consultations</u>			
1.	Initial consultation and report	AC500 (MBS 104)	\$319.80
2.	Extended initial consultation and report	WCO006	\$440.60
3.	Subsequent consultation	AC510 (MBS 105)	\$220.30
4.	Out-of-hours consultation	WCO007	\$184.80 in addition to consultation fee
<u>Procedures</u>			
5.	Orthopaedic procedures	ML005 (MBS 46300) to MY115 (MBS 50130)	150% of AMA List fee (Note: 150% of AMA List fee applies to the primary item number only. For any additional item numbers refer to item 8 of this Schedule)
6.	Instrument fee	WCO003	\$220.30

7.	Assistant at operation (Assistant must be a Medical Practitioner for this fee to be payable)	MZ900	A fee of 20% of the total fee for the surgical procedure/s or \$369.50, whichever is the greater (where an assistant's fee is allowed for)
8.	Multiple operations or injuries		Primary item number is to be paid in full (150% of AMA List fee), and additional item numbers at 75% (i.e. 75% x 150% of AMA List fee)
9.	Aftercare visits		As per AMA List
10.	Compound (open) wound		In an open fracture wound that requires debridement, a 50% loading for open fracture fixation can be applied Debridement item 30023/EA075 is not to be used when applying this loading
11	Out of hours loading	WCO008	20% of total procedure fee
<u>Insurer/lawyer requests</u>			
12.	Opinion on file request	WCO009	\$220.30
13.	Telephone requests including Case conferences (refer to the definition within the <i>Workers Compensation (Medical Practitioner Fees) Order 2017</i>)	WCO002	\$42.60 per 3-5 minute phone call
14.	Lost reports and reprints		149.30 per report
15.	Consulting Orthopaedic Surgeon reports (where additional information that is not related to the routine injury management of the patient is requested by either party to a potential or current dispute) Note: The party requesting a report must agree the category of report with the Medical Practitioner in advance and confirm the request in writing at the time of referral.	Relevant IMS/WIS code	Please refer to the Workplace Injury Management and Workers Compensation (Medical Examinations and Reports) Order 2017 Schedule 2
16.	Fees for providing copies of clinical	WCO005	The maximum fee for providing

	notes and records		hard copies of medical records (including Consulting Orthopaedic Surgeon's notes and reports) is \$38 (for 33 pages or less) and an additional \$1.40 per page if more than 33 pages. If the medical records are provided electronically, a flat fee of \$38 applies.
--	-------------------	--	---

SCHEDULE B

BILLING ITEMS USED IN HAND SURGERY

Table 1: Items numbers and descriptors no longer applicable to hand surgery procedures

AMA/CMBS item number	Descriptor	Reason for decline
CV233/18266 CV082/Nil	INJECTION OF AN ANAESTHETIC AGENT, ulnar, radial or median nerve of main trunk, one or more of, not being associated with a brachial plexus block MINOR NERVE BLOCK (specify type) to provide post-operative pain relief (this does not include subcutaneous infiltration)	The MBS does not allow a claim for nerve blocks performed as a method of postoperative analgesia. Infiltration is included in both the anaesthetic schedule AND in the surgical item number fee if performed by the Orthopaedic Surgeon. This item can only be used in circumstances where a formal nerve block is performed by the Orthopaedic Surgeon as the only form of anaesthesia and no charge is raised for another anaesthetic service.
MG540/45051	CONTOUR RECONSTRUCTION for open repair of contour defects, due to deformity, requiring insertion of a non-biological implant, if it can be demonstrated that contour reconstructive surgery is indicated because the deformity is secondary to congenital absence of tissue or has arisen from trauma (other than trauma from previous cosmetic surgery), excluding the following: (a) insertion of a non-biological implant that is a component of another service listed in Surgical Operations; (b) injection of liquid or semisolid material; and (c) services to insert mesh	This relates to the insertion of foreign implant for pathological deformity by an open operation i.e. facial reconstruction and was not intended for usage in hand surgery.
MH480/45445	FREE GRAFTING (split skin) as inlay graft to 1 defect including elective dissection using a mould (including insertion of and removal of mould)	The appropriate item is MH490/45448.
MR170/47954	TENDON, repair of, not being a service to which another item in this Group applies	This item is from the orthopaedic group of items. There already exist appropriate items in the hand surgery section.
MR210/47966	TENDON OR LIGAMENT	This item is from the orthopaedic group

AMA/CMBS item number	Descriptor	Reason for decline
	TRANSFER, not being a service to which another item in this Group applies	of items. There already exist appropriate items in the hand surgery section.
MR220/47969	TENOSYNOVECTOMY, not being a service to which another item in this Group applies	This item is from the orthopaedic group of items. There already exist appropriate items in the hand surgery section.
MR230/47972	TENDON SHEATH, open operation for tenovaginitis, not being a service to which another item in this Group applies	This item is from the orthopaedic group of items. There already exist appropriate items in the hand surgery section.
MS015/48403	PHALANX OR METATARSAL, osteotomy or osteectomy of, with internal fixation	This item is from the orthopaedic group of items and relates to foot surgery only. There already exist appropriate items in the hand surgery section.
MY015/50103	JOINT, arthrotomy of, not being a service to which another item in this Group applies	This item is from the orthopaedic group of items. There already exist appropriate items in the hand surgery section.
MY025/50104	JOINT, synovectomy of, not being a service to which another item in this Group applies	This item is from the orthopaedic group of items. There already exist appropriate items in the hand surgery section.
MY045/50109	JOINT, arthrodesis of, not being a service to which another item in this Group applies	This item is from the orthopaedic group of items. There already exist appropriate items in the hand surgery section.
MY105/50127	JOINT OR JOINTS, arthroplasty of, by any technique not being a service to which another item applies	This item is from the orthopaedic group of items. There already exist appropriate items in the hand surgery section.
OF820/60506	FLUOROSCOPY using a mobile image intensifier, in conjunction with a surgical procedure lasting less than 1 hour, not being a service to which another item in this table applies (R)	This item cannot be claimed for use of image intensification when operated by the Orthopaedic Surgeon in the absence of a radiographer.
OF824/60509	FLUOROSCOPY using a mobile image intensifier, in conjunction with a surgical procedure lasting 1 hour or more, not being a service associated with a service to which another item in this table applies (R)	This item cannot be claimed for use of image intensification when operated by the Orthopaedic Surgeon in the absence of a radiographer.

Table 2: Item numbers with restricted application for hand surgery – clinical justification required

AMA/CMBS item number	Descriptor	Clinical indication
AC510/30105	Each attendance SUBSEQUENT to the first in a single course of treatment	Follow up consultations will not be paid within the 6 week period following a procedure as this is included in normal aftercare.
EA075/30023	WOUND OF SOFT TISSUE, traumatic, deep or extensively contaminated, debridement of, under	This item applies to heavily contaminated wounds and removal of devitalized tissue in deep wounds. The

	general anaesthesia or regional or field nerve block, including suturing of that wound when performed (Assist.)	majority of clean lacerations in acute hand injuries will attract item EA095/30029. Debridements are also not applicable when removing percutaneous wire fixation. There will be a limit of one debridement per digit.
EA095/30029	SKIN AND SUBCUTANEOUS TISSUE OR MUCOUS MEMBRANE, REPAIR OF WOUND OF, other than wound closure at time of surgery, not on face or neck, small (NOT MORE THAN 7CM IN LENGTH), involving deeper tissue, not being a service to which another item in Group 3.4 applies.	This item is for use in wound suture when no other vital tissue is involved. It cannot be used in conjunction with item EA075/30023 for the same wound/zone of injury, nor when repair of a deeper structure is also performed and claimed for.
EA755/30223	LARGE HAEMATOMA, LARGE ABSCESS, CARBUNCLE, CELLULITIS OR SIMILAR LESION, requiring admission to hospital or day-hospital facility, INCISION WITH DRAINAGE OF (excluding aftercare)	This item cannot be used in conjunction with item EA075/30023 for the same wound/zone of injury.
EA825/30238	FASCIA, DEEP, repair of, FOR HERNIATED MUSCLE	This item is rarely indicated and cannot be used in conjunction with items: EA075/30023, MR240/47975, MR250/47978, and MR260/47981.
ET560/33815 ET570/33818	MAJOR ARTERY OR VEIN OF EXTREMITY, repair of wound of, with restoration of continuity, by lateral suture. MAJOR ARTERY OR VEIN OF EXTREMITY, repair of wound of, with restoration of continuity, by direct anastomosis	This item is applicable for repair of radial, ulnar or brachial arteries proximal to wrist crease.
LN740/39312	NEUROLYSIS, internal (interfascicular) neurolysis of, using microsurgical techniques	This item is never indicated in acute trauma. It is rarely indicated in elective surgery and is reserved for use in revision nerve decompression surgery. This item is not to be used in conjunction with item MU400: Wrist carpal tunnel release (division of transverse carpal ligament), by open procedure.
LN750/39315	NERVE TRUNK, nerve graft to, (cable graft) including harvesting of nerve graft using microsurgical techniques	This item can only be charged once per named nerve trunk, regardless of the number and distal distribution of individual cables. This item cannot be used in conjunction with items LN790, LN800 or LN810
LN760/39318	CUTANEOUS NERVE (including digital nerve), nerve graft to, using microsurgical techniques	This item cannot be used in conjunction with items LN790, LN800 or LN810. This item cannot be used for prosthetic neural tubes or wraps. In this setting, items LN700 or LN710 are applicable.
LN790/39324 LN800/39327	NEURECTOMY, NEUROTOMY or removal of tumour from superficial	This item cannot be used in conjunction with item LN810.

	peripheral nerve, by open operation	
LN810/39330	NEUROLYSIS by open operation without transposition, not being a service associated with a service to which item LN740 applies	This item is not for the identification of nerves during surgical exposure. It is not to be used in combination with item LN700. This item is not to be used in conjunction with item MU400: Wrist carpal tunnel release (division of transverse carpal ligament) by open procedure. However, items LN810 and MU400 can be used together for combined open carpal tunnel release and cubital tunnel release surgery. This item is not to be used in conjunction with item ML235 Tendon sheath of hand/wrist open operation for stenosing tenovaginitis.
MH115/45203	SINGLE STAGE LOCAL FLAP, where indicated to repair 1 defect, complicated or large, and excluding flap for male pattern baldness and excluding H-flap or double advancement flap	This item is rarely indicated in the hand and wrist as a large defect will not be readily amenable to a local flap reconstruction. It is not to be used for suturing of traumatic skin flaps.
MH125/45206	SINGLE STAGE LOCAL FLAP where indicated to repair 1 defect, on eyelid, nose, lip, ear, neck, hand, thumb, finger or genitals, excluding H-flap or double advancement flap	This item can only be used once for a z-plasty.
MJ025/45500	MICROVASCULAR REPAIR using microsurgical techniques, with restoration of continuity of artery or vein of distal extremity or digit	This item relates to microvascular repair of an artery or vein. This item will not be paid for repair of dorsal veins with volar skin intact, branches of digital arteries, branches of radial/ulnar vessels and venae comitantes of major arteries. Microvascular repairs distal to the metacarpophalangeal joint will also require clinical documentation of appropriate surgical technique utilising an operating microscope.
MJ030/MJ035 45501/45502	MICROVASCULAR ANASTOMOSIS of artery using microsurgical techniques, for re-implantation of limb or digit/ MICROVASCULAR ANASTOMOSIS of vein using microsurgical techniques, for re-implantation of limb or digit	These items specifically relate to replantation of limb and digit i.e. The amputated portion must be completely detached.
MJ045/45503	MICRO-ARTERIAL or MICRO-VEINOUS graft using microsurgical techniques	This item includes the remuneration for harvesting the graft and performing any microvascular anastomoses to the graft.
MJ075/45515	SCAR, other than on face or neck, NOT MORE	This item cannot be used in conjunction with

	THAN 7 CMS IN LENGTH, revision of, as an independent procedure, where undertaken in the operating theatre of a hospital or approved day hospital facility, or where performed by a Specialist in the practice of his or her specialty	other items e.g. nerve repair, tendon repair, flap repair (i.e. intended to be an independent procedure).
MJ245/45563	NEUROVASCULAR ISLAND FLAP, including direct repair of secondary cutaneous defect if performed, excluding flap for male pattern baldness	This item is for a true island flap, elevated on a neurovascular pedicle for an existing traumatic defect. This item is not to be claimed for VY advancement flaps where item MH125/45206 is applicable.
ML105/46325	CARPAL BONE replacement or resection arthroplasty using adjacent tendon or other soft tissue including associated tendon transfer or realignment when performed	This item is primarily intended for use in reconstruction for basal thumb arthritis. It is not approved for excision of the pisiform.
ML115/46327	INTER-PHALANGEAL JOINT or METACARPOPHALANGEAL JOINT, arthrotomy of	This item is not to be used in addition to item EA075/30023 when arthrotomy is performed to facilitate joint lavage within an open wound.
ML125/46330	INTER-PHALANGEAL JOINT or METACARPOPHALANGEAL JOINT, ligamentous or capsular repair with or without arthrotomy	This item is only permitted for repair of named ligaments where preoperative or intraoperative findings document significant joint instability.
ML135/46333	INTER-PHALANGEAL JOINT or METACARPOPHALANGEAL JOINT, ligamentous repair of using free tissue graft or implant	This item is only permitted for repair of named ligaments using free grafts or alloplast where preoperative or intraoperative findings document significant joint instability. This item cannot be used for reattachment of ligament using a bone anchor. Item ML125/46330 is the approved item.
ML145/46336	INTER-PHALANGEAL JOINT or METACARPOPHALANGEAL JOINT, synovectomy, capsulectomy or debridement of, not being a service associated with any other procedure related to that joint	This item cannot be claimed in conjunction with any other item or procedure related to the joint. This item cannot be used in conjunction with item EA075/30023.
ML155/46339	EXTENSOR tendons or FLEXOR tendons of hand or wrist synovectomy of	Item ML235/46363 is <u>not</u> indicated for use with surgery for de Quervain's tenovaginitis and is rarely indicated in routine carpal tunnel surgery.
ML345/46396	PHALANX or METACARPAL of the hand, osteotomy or osteectomy of	This item is applicable for removing excess bone formation in an <i>intact</i> bone. This is no longer to be applied to removal of loose pieces of bone in trauma or bone shortening for terminalisation or replantation. This is

		part of the debridement and is included in item EA075/30023 if applicable.
ML405/46414	ARTIFICIAL TENDON PROSTHESIS, INSERTION OF in preparation for tendon grafting	Tenolysis (items ML535/46450, ML545/46453) or tenotomy (item MR200/47963) of the tendon to be grafted cannot be billed with this item.
ML535/46450 ML545/46453	EXTENSOR TENDON, TENOLYSIS OF, following tendon injury, repair or graft FLEXOR TENDON, TENOLYSIS OF, following tendon injury, repair or graft	These items are applicable for freeing tendons from scar following previous surgery or trauma. They are not indicated in an acute hand injury. Item ML545/46453 cannot be claimed in conjunction with release of trigger finger.
ML765/46504	NEUROVASCULAR ISLAND FLAP, for pulp innervation	These items are only to be used for a heterodigital neurovascular island flap used to resurface pulp loss (e.g. Littler flap, first dorsal metacarpal artery or Kite flap).
ML795/46513 ML805/46516	Digital nail of finger or thumb, removal of	This item should not be used in association with nail bed repair (items ML665/46486 or ML675/46489)
ML805/46516	DIGITAL NAIL OF FINGER OR THUMB, removal of, in the operating theatre of a hospital or approved day hospital facility	This item is not to be used in association with primary or secondary nail bed repair (items ML665/46486, ML675/46489)
ML825/46522	FLEXOR TENDON SHEATH OF FINGER OR THUMB - open operation and drainage for infection	This item is applicable only for drainage of suppurative flexor tenosynovitis. It does not apply to washout of flexor sheath in acute injury.
MR088/47920	BONE GROWTH STIMULATOR, insertion of	This is only indicated where a mechanical bone growth stimulator has been inserted. It is not for the insertion of OP1 or other bone morphogenic proteins in the setting of hand surgery
MR090/47921	ORTHOPAEDIC PIN OR WIRE, insertion of, as an independent procedure	This item cannot be claimed when the k-wire has been used as part of fracture fixation.
MR110/47927	BURIED WIRE, PIN OR SCREW, 1 or more of, which were inserted for internal fixation purposes, removal of, in the operating theatre of a hospital or approved day hospital facility - per bone	This item applies for removal of <i>buried</i> k-wire. Where a k-wire or wires cross more than 2 bones, only 1 item is claimable.
MR630/48239 MR640/48242	BONE GRAFT (with or without internal fixation), not being a service to which another item in this Group applies	These items cannot be claimed in conjunction with fracture fixation items or the following items: ML005, ML015, ML355, ML365, ML375, MR560-MR620.
MS005/48400	PHALANX, METATARSAL, ACCESSORY BONE OR SESAMOID BONE, osteotomy or osteectomy of, excluding services to which item MX660 or MX670 applies	This item is only applicable to sesamoidectomy.
MS025/48406	FIBULA, RADIUS, ULNA, CLAVICLE, SCAPULA (other than acromion), RIB, TARSUS OR CARPUS, osteotomy or osteectomy of	This item is the appropriate one for excision of the pisiform. This item is <u>not</u> appropriate for simple removal of bone prominence, osteophytes or small quantities of excess bone.
MU470/49212	WRIST, arthrotomy of	This item is not to be used in conjunction with excision of primary or

		recurrent wrist ganglia (Items ML725/46500, ML755/46503)
MY035/50106	JOINT, stabilisation of, involving 1 or more of: repair of capsule, repair of ligament or internal fixation, not being a service to which another item in this group applies	This item is applicable for stabilization of CMC joints only.

SCHEDULE C

BILLING ITEMS USED IN SHOULDER AND ELBOW SURGERY

The Order adopts the *WorkCover Queensland Shoulder and Elbow Surgery Guidelines* with minor modifications. These are outlined below and their use is mandatory when billing for shoulder and elbow surgery.

AMA/CMBS item number	Descriptor	Clinical indication
BONE GRAFTS		
MR550/48215	Humerus, bone graft to, with internal fixation	
MR640/48242	Bone graft, with internal fixation	Not being a service to which another item in this group applies
MS005/48400	Phalanx, metatarsal, accessory bone or sesamoid bone, osteotomy or osteectomy of, excluding services to which item MX660 or MX670 applies, any of items MX660, MX670, MR130 or MR140 apply	
MS025/48406	Fibula, radius, ulna, clavicle, scapula (other than acromion), rib, tarsus or carpus, osteotomy or osteectomy of	Excluding services to which items MR130/47933 or MR140/47936 apply. Not to be used in combination with item MT770/48951 Flag if this item is used in combination with any other shoulder items (MT600/48900 to MT800/48960)
MS035/48409	Fibula, radius, ulna, clavicle, scapula (other than acromion), rib, tarsus or carpus, osteotomy or osteectomy of, with internal fixation.	Excluding services to which items MR130/47933 or MR140/47936 apply. Not to be used in combination with item MT770/48951 Flag if this item is used in combination with any other shoulder items (MT600/48900 to MT800/48960)
MS045/48412	HUMERUS, osteotomy or osteectomy of, excluding services to which items MR130 or MR140 apply	Flag if this item is used for tennis elbow surgery
SHOULDERS		

AMA/CMBS item number	Descriptor	Clinical indication
MT600/ 48900	Excision or coraco-acromial ligament or removal of calcium deposit from cuff or both	Open operation not arthroscopic. Use of this item rarely seen in State Insurance Regulatory Authority claims Flag if this item is used twice or more
MT610/ 48903	Decompression of subacromial space by acromioplasty	Open operation, also known as open acromioplasty or subacromial decompression (SAD)
MT620/48906	Repair of rotator cuff, including excision of coraco-acromial ligament	Known as open cuff repair without acromioplasty Not to be used in combination with item MT600/48900. If MS025 is performed it cannot be used with item MT770
MT630/48909	Repair of rotator cuff, including decompression of subacromial space by acromioplasty	Known as open rotator cuff repair with acromioplasty with excision of AC joint Not being a service to which item MT610/48903 applies Flag if this item is used with MX670/49851
MT640/48912	Shoulder arthrotomy	Use of this item rarely seen in State Insurance Regulatory Authority claims Flag if this item is used in combination with any other item code for shoulder surgery
MT650/48915	Hemi-arthroplasty	Use of this item rarely seen in State Insurance Regulatory Authority claims Maybe appropriate for shoulder fractures only
MT660/48918	Total replacement arthroplasty including rotator cuff repair	Use of this item rarely seen in State Insurance Regulatory Authority claims
MT670/48921	Revision of total replacement arthroplasty	Use of this item rarely seen in State Insurance Regulatory Authority claims
MT680/48924	Revision of total replacement arthroplasty with bone graft to scapula or humerus	Use of this item rarely seen in State Insurance Regulatory Authority claims
MT690/48927	Removal of shoulder prosthesis	Use of this item rarely seen in State Insurance Regulatory Authority claims
MT700/48930	Stabilisation for recurrent anterior/posterior dislocation	Known as open shoulder stabilisation (including repair of labrum) If recurrent, treatment option: highly recommend looking into claimant's history to determine if surgery is to treat the aggravation or pre-existing condition
MT710/48933	Stabilisation for multidirectional dislocation	Mostly used for open procedures

AMA/CMBS item number	Descriptor	Clinical indication
MT720/48936	Synovectomy as an independent procedure	Use of this item rarely seen in State Insurance Regulatory Authority claims Flag if this item is used in combination with any other item code
MT730/48939	Arthrodesis with synovectomy	Use of this item rarely seen in State Insurance Regulatory Authority claims Flag if this item is used once or more
MT740/48942	Arthrodesis with synovectomy, removal of prosthesis and bone grafting	Use of this item rarely seen in State Insurance Regulatory Authority claims Flag if this item is used once or more
MT750/48945	Diagnostic arthroscopy	Not to be used with any arthroscopic procedure of the shoulder region May be used with open surgery i.e. items MT630/48909, MT620/48906, MT710/48933
MT760/48948	Arthroscopic surgery, with one or more: removal loose bodies, decompression of calcium deposits, debridement labrum/synovium/rotator cuff, chondroplasty	Not to be used with any other arthroscopic procedure of the shoulder region Preparatory for an open procedure Appropriate with items MT620/48906 and MT630/48909. May be used with items MT700/48930 and MT710/48933
MT770/48951	Arthroscopic division of the coraco-acromial ligament including acromioplasty	Not to be used with any other arthroscopic procedure of the shoulder region Not to be used in combination with items EA365/30111 or MT780/48954
MT780/48954	Arthroscopic total synovectomy including release of contracture (shoulder)	Known as frozen shoulder release; stand alone item code Not to be used with any other arthroscopic procedure of the shoulder region Not to be used in combination with item MT770/48951 Flag if this item is used with any other item number for shoulder surgery
MT790/48957	Arthroscopic stabilisation for recurrent instability including labral tear or reattachment	Not to be used with any other arthroscopic procedure of the shoulder region If recurrent treatment option, highly recommend looking into claimant's history to determine if surgery is to treat the aggravation or pre-existing condition Flag if this item number used with any other item number for shoulder surgery

AMA/CMBS item number	Descriptor	Clinical indication
MT800/48960	Reconstruction or repair of, including rotator cuff by arthroscopic, arthroscopic assisted or mini open means; arthroscopic acromioplasty; or resection of acromioclavicular joint by separate approach	Not to be used with any procedure of the shoulder region Not to be used in combination with any other item number for shoulder surgery May be used with 18256 Not to be used with item EA365/30111 Flag if this item number is used in combination with items MT770/48951 or MT790/48957
ELBOW		
MU035/49100	Arthrotomy of, involving one or more of lavage, removal of loose body or division of contracture	Not to be used for tennis elbow surgery
MU045/49103	Ligamentous stabilisation	Not to be used in conjunction with item LN810/39330 Acceptable to use item LN810/39330 if the ulnar nerve requires mobilisation or decompression at the time of stabilisation (operation notes should reflect this). Transposition item LN770/39321 is commonly used. Ulnar nerve transposition can occur frequently in large elbow operations. It may be necessary to perform neurolysis of more than one nerve such as radial and ulnar, if there was significant previous injury or previous surgery
MU055/49106	Arthrodesis with synovectomy	Use of this item rarely seen in State Insurance Regulatory Authority claims Flag if this item code is used
MU065/49109	Total synovectomy	Known as common contracture release Use of this item rarely seen in State Insurance Regulatory Authority claims May be appropriate with oosteotomy i.e. items MS045/48412 or MS025/48406 Flag if used
MU075/49112	Silastic replacement of radial head	Seen with fractures and dislocations May be associated with other items i.e. MU045/49103 or MU075/49112 Not to be used in combination with item MU065/49109 Flag if used
MU085/49115	Total joint replacement	Use of this item rarely seen in State Insurance Regulatory Authority claims Flag if used
MU086/49116	Total replacement arthroplasty, revision procedure, including removal of prosthesis	Use of this item rarely seen in State Insurance Regulatory Authority claims Flag if used
MU087/49117	Total replacement arthroplasty, revision procedure with bone grafting or removal or prosthesis	Use of this item rarely seen in State Insurance Regulatory Authority claims Flag if used

AMA/CMBS item number	Descriptor	Clinical indication
MU095/49118	Diagnostic arthroscopy	Not to be used with any other arthroscopic procedure of the elbow region Appropriate for use with open elbow surgery
MU105/49121	Arthroscopic surgery of elbow	Involving any one or more of: drilling of defect, removal of loose body, release of contracture or adhesions, chondroplasty, or osteoplasty (not a service associated with any other arthroscopic procedure of the elbow joint)
OTHER		
EA365/30111	Bursa (large) including olecranon, calcaneum or patella, excision of	May be used in combination with olecranon bursa Flag if used in combination with any shoulder surgery Not to be used in combination with item MT800/48960
LN810/39330	Neurolysis by open operation without transposition	Not being a service associated with a service to which item LN740/39312 applies Can be used in combination with elbow surgery Not to be used in combination with item MT760/48948 Flag if used in combination with any item codes for shoulder surgery
LIMB LENGTHENING AND DEFORMITY CORRECTION		
MZ330/50405	Elbow, flexorplasty, or tendon transfer to restore elbow function	May be seen in distal biceps reconstruction Use of this item rarely seen in State Insurance Regulatory Authority claims – set of item numbers address congenital conditions Flag if used
OTHER JOINTS		
MY035/50106	Joint, stabilisation of, involving one or more of: repair of capsule, repair of ligament or internal fixation	Not being a service to which another item in this group applies Appropriate to be used with items MT610/48903 and MR210/47966

AMA/CMBS item number	Descriptor	Clinical indication
MY055/ 50112	Cicatricial flexion or extension contraction of joint, correction of, involving tissues deeper than skin and subcutaneous tissue, not being a service to which another item in this group applies	<p>Not to be used with any other arthroscopic procedure of the shoulder region</p> <p>Not to be used in combination with item MT780/48954</p> <p>Flag if used in combination with any items for elbow and shoulder surgery</p> <p>Implies a release for stiffness after injury or surgery. May occur with other numbers in relation to a large release of the stiff elbow. Three to five item numbers should be in association with an operation that took two to three hours and is usually a revision situation or after serious trauma. The complexity should be reflected in the history of injury, number of prior operations, duration of surgery, complexity of the operation note.</p>
MY065/ 50115	Joint or joints, manipulation of, performed in the operating theatre of a hospital	<p>Not to be used for an 'examination' of a joint under general anaesthetic prior to an operation, where the general anaesthetic is for the operation itself</p> <p>Not being a service associated with a service to which another item in this group applies</p> <p>Flag if this item code is used two or more times</p>
MY105/50127	Joint or joints, arthroplasty of, by any technique	<p>Not being a service to which another item applies</p> <p>Not to be used in combination with any items for shoulder, elbow or sternoclavicular surgery</p>
GENERAL		
MP455/47429	Humerus, proximal, treatment of fracture of, by open reduction	
MP465/47432	Humerus, proximal, treatment of intra-articular fracture of, by open reduction	
MP485/47438	Humerus, proximal, treatment of fracture of, and associated dislocation of shoulder, by open reduction	
MP495/47441	Humerus, proximal, treatment of intra-articular fracture of, and associated dislocation of shoulder, by open reduction	
MR020/47903	Epicondylitis, open operation for	<p>Tennis elbow</p> <p>Not to be used in combination with item MS045/48412</p> <p>Flag if used</p>

AMA/CMBS item number	Descriptor	Clinical indication
MR110/47927	Buried wire, pin or screw, one or more of, which were inserted for internal fixation purposes, removal of, in the operating theatre of a hospital	Per bone
MR120/47930	Plate, rod or nail and associated wires, pins or screws, one or more of, all of which were inserted for internal fixation purposes, removal of	Not being a service associated with a service to which items MR100/47924 or MR110/47927 apply - per bone
MR170/47954	Tendon, repair of, as an independent procedure	Can be used in treating biceps tenodesis Flag if used with any other item code
MR190/47960	Tenotomy, subcutaneous	Not being a service to which another item in this group applies
MR200/47963	Tenotomy, open, with or without tenoplasty	Not being a service to which another item in this group applies Could be used in combination with items MT770/48951 or MT800/48960
MR210/47966	Tendon or ligament, transfer,	As an independent procedure Could be used in combination with items MT770/48951 or MT800/48960
MR220/47969	Tenosynovectomy	Not being a service to which another item in this group applies Should not be used for tennis elbow or shoulder surgery Flag if used for shoulder or elbow procedures
